

Statement Of Compliance With Written Law 2002 / 03

To the best of our knowledge, we have complied with the requirements of the relevant written law, as originally enacted and as variously amended. The relevant Acts and amendments to regulators are noted in this section of the annual report.

Murray Jorgenson
Chairman

ACTS ADMINISTERED

Forest Products Act 2000

The Forest Products Commission was established on 16 November 2000 under the Forest Products Act 2000 and is responsible for the commercial production, allocation and sale of forest products from Western Australia's native forests and from State-owned and State-managed plantations.

Government Agreements Acts relevant to the Forest Products Commission

- *Albany Hardwood Plantation Agreement Act 1993*
- *Bunbury Treefarm Project Agreement Act 1995*
- *Collie Hardwood Plantation Agreement Act 1995*
- *Dardanup Pine Log Sawmill Act 1992*
- *Silicon (Kemerton) Agreement Act 1987*
- *Wood Chipping Industry Agreement Act 1969*
- *Wood Processing (Wesbeam) Agreement Act 2002*
- *Wood Processing (WESFI) Agreement Act 2000*

Other relevant State Acts

- *Aboriginal Heritage Act 1972*
- *Aerial Spraying Control Act 1966*
- *Agricultural and Related Resources Protection Act 1976*
- *Agriculture and Veterinary Chemicals (Western Australia) Act 1995*
- *Agriculture Protection Board Act 1950*
- *Biological Control Act 1986*
- *Bush Fires Act 1954*

- *Conservation and Land Management Act 1984*
- *Control of Vehicles (Off-Road Areas) Act 1978*
- *Country Areas Water Supply Act 1947*
- *Dangerous Goods (Transport) Act 1998*
- *Disability Services Act 1993*
- *Environmental Protection Act 1986*
- *Equal Opportunity Act 1984*
- *Explosive and Dangerous Goods Act 1961*
- *Financial Administration and Audit Act 1985*
- *Fish Resources Management Act 1994*
- *Freedom of Information Act 1992*
- *Government Employees Housing Authority Act 1964*
- *Health Act 1911*
- *Heritage of Western Australia Act 1990*
- *Industrial Relations Act 1979*
- *Land Administration Act 1997*
- *Local Government Act 1995*

S t a t e m e n t O f C o m p l i a n c e W i t h P u b l i c S e c t o r S t a n d a r d s

I have complied with Public Sector Standards in Human Resources Management, the WA Public Sector Code of Ethics and the Commission's Code of Conduct.

There has been one breach of the Public Sector Standards in Human Resource Management as a consequence of reviews undertaken in accordance with the *Public Sector Management (Review Procedures) Regulations 1995*.

Dr Paul Biggs
General Manager

29 August 2003

C e r t i f i c a t i o n O f
P e r f o r m a n c e I n d i c a t o r s

We hereby certify that the performance indicators of the Forest Products Commission are based on proper records, are relevant and appropriate for assisting users to assess the Commission's performance and fairly represent the performance of the Commission for the financial year ended 30 June 2003.

Murray Jorgensen
Chairman

30 October 2003

Dr Marilyn Clark-Murphy
Commissioner

Key Performance Indicators

Under the *Forest Products Act 2000* the Commission is required to sell and harvest forest products by means of production contracts.

The Commission's outcome is to try and ensure that a profit consistent with the planned targets is made from forest products while ensuring:

- (a) the long-term viability of the forest products industry; and
- (a) principles of ecologically sustainable forest management are applied in the management of forest products located on public land.

OUTCOME 1:

Ensure a profit consistent with planned targets.

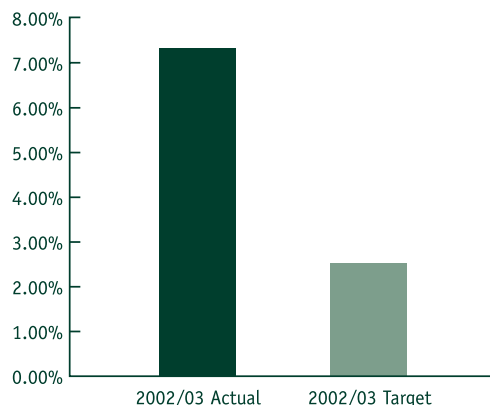

Key Effectiveness Indicator:

RATIO OF PROFIT BEFORE INTEREST AND TAX TO TOTAL ASSETS (RETURN ON TOTAL ASSETS):

Profit Before Interest and Tax

The ratio of Profit Before Interest and Tax has increased over the 2001/02 financial year due mainly to natural resource asset revaluations (refer annual financial statements note 33.1).

The ratio of profit before interest and tax as a percentage of total assets is higher than target due mainly to natural resource asset revaluations (refer annual financial statements note 33.2).

OUTCOME 2:

Ensure the long-term viability of the forest products industry.

Key Effectiveness Indicators

1. QUANTITY OF NATIVE FOREST HARDWOOD LOG TIMBER HARVESTED COMPARED TO SUSTAINABLE LEVELS AND TARGETS

The sustainable level is the average quantity of timber available for harvest each year, which can be continued in the long term.

Forest areas available for timber harvesting are measured using specifically designed inventory plots to determine the quantity of timber available and the rate at which it is growing.

Based on independent analysis of this information, the estimated sustainable level of annual gross bole volume for jarrah, karri and marri is 1,360,000m³, 417,000m³ and 559,000m³ respectively as determined for the term of the current Forest Management Plan 1994-2003 (FMP).

In 1999 the Regional Forest Agreement (RFA) set new sawlog sustained yield targets for the period 1999-2003 inclusive of an average 324,000m³ per annum jarrah first and second grade sawlogs, 186,000m³ karri first and second grade sawlogs adjusted to 149,000m³ by government policy and 78,000m³ per annum of marri sawlogs.

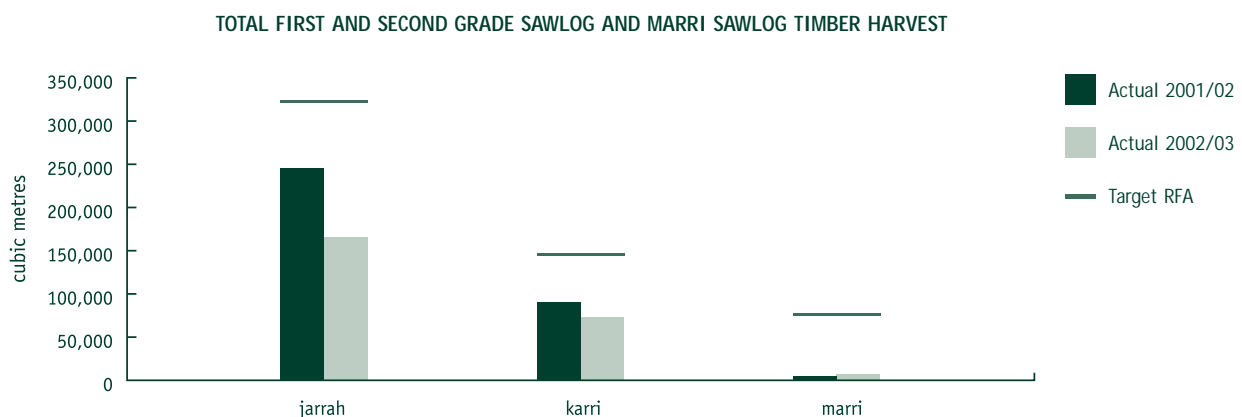

Harvest means the commercial extraction and sale of log timber for processing and value adding.

Measure:

- (i) Actual quantity of the total bole volume harvest of native forest hardwood log timber for the period 2002/03 for jarrah was 236,190m³, for karri 158,527m³ and marri 64,642m³.

- (ii) Actual quantity for 2002/03 of first and second grade jarrah was 163,966m³, karri sawlog 70,913m³ and marri sawlog 8,401m³.

Sawlog deliveries are reducing due to business exits and voluntary restructuring in line with the government's 'Protecting Our Old Growth Forests' policy. New targets have been established in the 2004 Forest Management Plan announced in July 2003. Output levels for the 2003/04 financial year has been set at levels in line with the new Forest Management Plan.

2. THE AREA OF PLANTATIONS ESTABLISHED WILL MEET THE DEFINED OUTCOME

Plantation establishment straddles the financial year, therefore areas of establishment reported in this Annual Report are those established during the winter of 2002.

Areas established can achieve a range of benefits. This will be to supply an existing industry, to develop resources in new areas for future regional economic benefits and for multiple landcare protection purposes.

Measure:

The areas established against targets.

		Second rotation pine species	First rotation pine species	Eucalypt species	Sandalwood
Target		914	2300	4087	200
Total Area established		721	1089	3407	61
Note:		1	2	3	4
Purpose	Sustain existing industry	721	683	-	61
	Regional development	-	212	2922	-
	Salinity, water quality and landcare	-	194	485	-

(1) Second rotation pines

Target: 914 hectares

- (i) Re-establish all areas clearfelled and ready for replanting (721 hectares).

(2) First rotation pines

Target: 2,300 hectares

Whereas there is an annual target for planting areas, these are in effect to relieve a long-term goal of a commercially viable plantation estate within a geographic area.

- (i) Mid-West to replace areas to be clearfelled at Gngalara (approximately 23,000 hectares) to date a total of approximately 8,743 hectares established in new areas (as at 31 December 02); and
- (ii) Final goal for various regional cells (Katanning, Esperance, Albany) yet to be determined as part of detailed planning for coordinated approach to tree farming in Western Australia.

(3) Eucalypt species

Target: annual targets are set by investors to achieve their long-term goals in accordance with State Agreements and Project Plans.

- (i) Eucalypt species - establish plantations to meet requirements of the Commission's clients. Target 56,000 hectares - established to date 40,599 hectares.
- (ii) Eucalypt sawlog - the Commission initiated the New Eucalypt Sawlog program with the Water and Rivers Commission. The target area was 587 hectares with 485 hectares being planted.

(4) Sandalwood

Target: 200 hectares.

- (i) The area planted was 61 hectares.

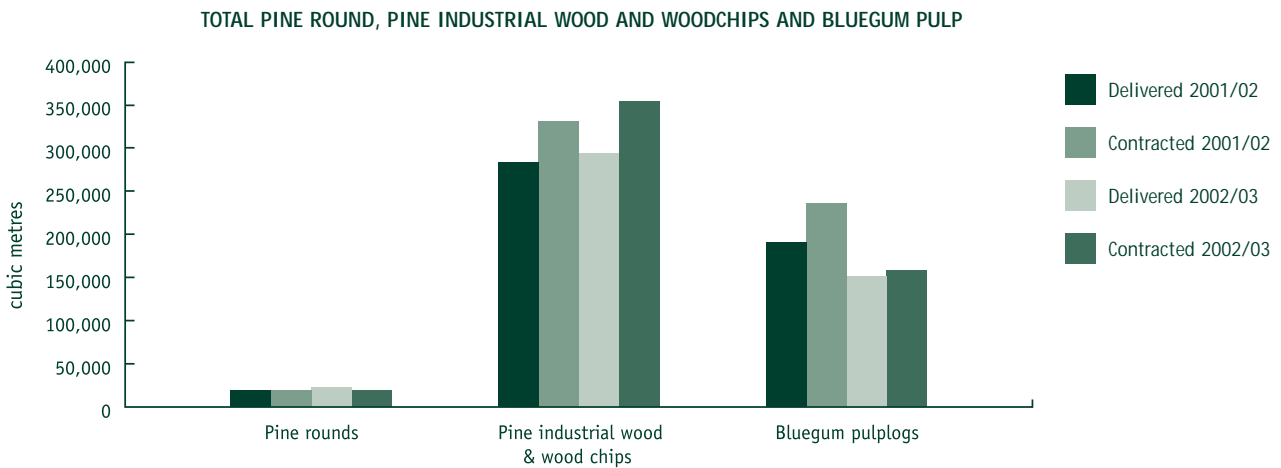

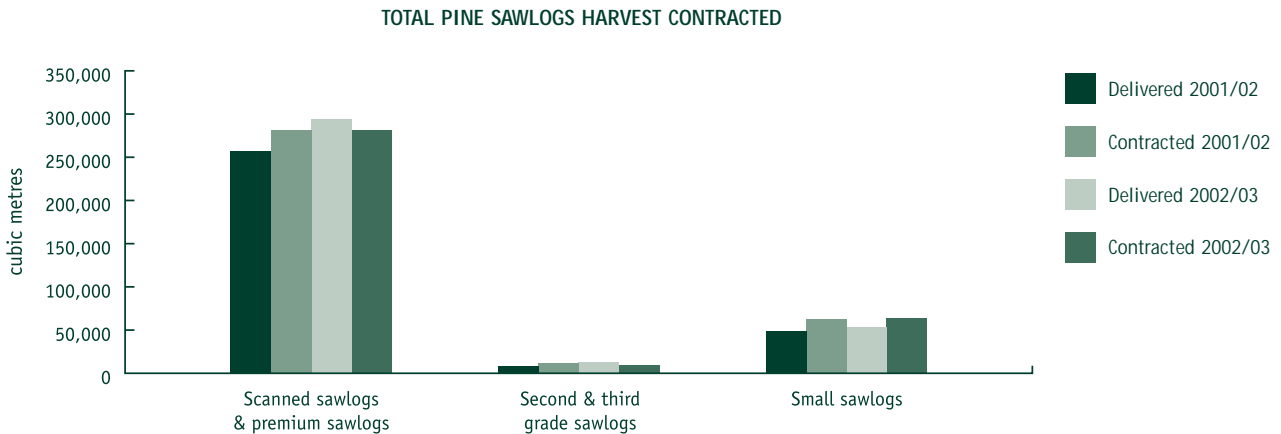

3. PLANTATION LOG PRODUCTION IS CONSISTENT WITH SUSTAINABLE SUPPLY TO INDUSTRY

Harvesting means the commercial extraction and sale of log timber for processing and value adding.

The sustainable level is the quantity of timber of a particular specification that can be harvested in the current year consistent with achieving the planned long-term supply to industry. As the plantations mature increasing quantities of logs are becoming available, and annual supply increases. Actual annual intake by industry will vary in accordance with the prevailing markets during that year.

Measure:

A comparison between actual production levels compared to the Commission's contractual commitments to supply:

Contractual supply levels indicate the current commitments consistent with the long-term sustainable supply. Log production to each customer varies on an annual basis in accordance with the prevailing market conditions for their products.

4. THE HARVEST OF 'GREENWOOD' SANDALWOOD WILL BE MAINTAINED AT A SUSTAINABLE LEVEL

Quantity of 'greenwood' sandalwood harvested.

The annual sustainable level of harvest for green sandalwood is set in accordance with relevant legislation and ISO 14001. (In addition to the sustainable green sandalwood harvest, deadwood is also harvested.)

Measure:

Green sandalwood quantities harvested were 1,392 tonnes for the 2002/03 period (2001/02 1,399 tonnes), within the permissible harvest level of 1,500 tonnes determined in accordance with the *Sandalwood Act 1929*.

OUTCOME 3

Ensuring principles of ecologically sustainable forest management are applied in the management of forest products located on public land.

Key Effectiveness Indicator

AREA OF NATIVE FOREST HARDWOOD REGENERATED

Regeneration treatments applied in any one year may include parts of areas harvested over a number of preceding years. On an annual basis the area regenerated may fluctuate above or below the area harvested due to unsuitable field conditions.

The area of native forest hardwood regenerated compared with the area harvested for regeneration.

The figures being reported cover the 2002 calendar year, with the comparatives covering the 2001 calendar year.

The area of native forest harvested for regeneration was 8,250 hectares (2001/02 10,780 hectares). Of this, 380 hectares (2001/02 660 hectares) were not proposed for treatment as it was due for mining in the short-term and further areas will not be treated following wildfires of 2002/03, pending assessment to determine actual extent and requirements. An additional 300 hectares (2001/02 250 hectares) did not require follow-up treatment post harvesting as the silvicultural objectives were met during harvesting. Treatments were completed for 3,200 hectares from this or previous years cutting.

OUTPUTS

OUTPUT 1 – NATIVE FOREST OPERATIONS DIVISION

The Native Forest Operations Division is responsible for the planning, harvesting and sale of forest products from indigenous forest on State-owned land. The output of this division is the harvesting of native forest hardwood and sandalwood.

KEY EFFICIENCY INDICATORS

1. Cost of harvesting - Native forest hardwood

The major elements of this cost relate to payments to contractors for harvesting and delivery, the road construction and maintenance.

Measure:

The cost per tonne harvested was \$35.19 (2001/02 \$32.32), an increase of \$2.87 (8.9%) per tonne.

This increase reflects the reduced sale of residue logs and increased level of processing of marri chiplogs prior to the point of sale. The latter is recovered in the final sale price.

2. Cost of harvesting - Sandalwood

The gross cost per tonne of harvesting sandalwood includes greenwood and deadwood. The major elements of this cost relate to payments to contractors for harvesting, delivery, regeneration and associated research.

Measure:

The cost per tonne harvested was \$3,788.70 (2001/02 \$3,513.10), an increase of \$275.60 per tonne (7.8%). This increase reflects increased expenditure on regeneration in harvested areas.

3. Cost per hectare managed native forest hardwood.

The Commission has access rights to a total State forest estate of 987,190 hectares (2001-02 987,190 hectares).

Measure:

The cost per hectare managed was \$14.60 per hectare (2001/02 \$21.48 per hectare) a reduction of 32%. Improvement reflects the reallocation of overheads and approved changes to funding arrangements for the Department of Conservation and Land Management, related mainly to fire protection.

OUTPUT 2 - PLANTATION OPERATIONS DIVISION

The Plantation Operations Division has three main operating arms:

- the Plantation Branch, which covers State-owned plantations;
- the Share Farms Branch, which has the responsibility of share farming agreements with landowners; and
- the Propagation Branch, which produces seedlings for internal needs as well as for external customers.

The outputs of this division are:

- (a) the harvest of all species of plantation timber; and
- (b) management of plantations.

KEY EFFICIENCY INDICATORS

1. Cost of harvesting.

Gross cost per tonne harvested for all species of plantation timber. The major elements of the costs comprise payments to contractors for harvesting and delivery, and roading.

Measure:

The average cost per tonne harvested (all products) from 1 July 2002 to 30 June 2003 was \$29.13 (2001/02 \$29.11).

2. Operating cost per hectare managed.

Measure:

The average cost for the year ending 30 June 2003 was \$301.56 (2001/02 \$236.81) per hectare managed, an increase of 27%.

The unit cost includes interest charges, rent, corporate overheads and cost of producing seedlings for external sale. The increase in cost per hectare managed is mainly due to indirect costs associated with the Afforestation Program which have not been capitalised, and the reallocation of overheads to reflect a higher level of plantations activity.

3. Cost per hectare re-established.

The Commission planted 721 hectares of new plantations to the end of December 2002 (943 hectares to the end of December 2001). The afforestation program establishment areas for the period was 846 hectares (3,526 hectares in 2001/02) however, the direct costs associated with the afforestation program have been capitalised and therefore do not form part of this measure.

Measure:

The establishment cost was \$2,758 per hectare (2001/02 \$2,166 per hectare) an increase of 27%.

This increase reflects timing differences between costs associated with planting years. Costs incurred in 2002/03 financial year relate to planting areas which will be reported in 2003/04.

AUDITOR GENERAL

INDEPENDENT AUDIT OPINION

To the Parliament of Western Australia

FOREST PRODUCTS COMMISSION PERFORMANCE INDICATORS FOR THE YEAR ENDED JUNE 30, 2003

Audit Opinion

In my opinion, the key effectiveness and efficiency performance indicators of the Forest Products Commission are relevant and appropriate to help users assess the Commission's performance and fairly represent the indicated performance for the year ended June 30, 2003.

Scope

The Commission's Role

The Commission is responsible for developing and maintaining proper records and systems for preparing performance indicators.

The performance indicators consist of key indicators of effectiveness and efficiency.

Summary of my Role

As required by the Financial Administration and Audit Act 1985, I have independently audited the performance indicators to express an opinion on them. This was done by looking at a sample of the evidence.

An audit does not guarantee that every amount and disclosure in the performance indicators is error free, nor does it examine all evidence and every transaction. However, my audit procedures should identify errors or omissions significant enough to adversely affect the decisions of users of the performance indicators.

D D R PEARSON
AUDITOR GENERAL
October 31, 2003

C e r t i f i c a t i o n O f T h e F i n a n c i a l S t a t e m e n t s

The accompanying financial statements of the Forest Products Commission have been prepared in compliance with the provisions of the *Financial Administration and Audit Act 1985*, from proper accounts and records, to present fairly the financial transactions for the financial year ending 30th June 2003 and the financial position as at 30th June 2003.

At the date of signing we are not aware of any circumstances that would render any particulars included in the financial statements misleading or inaccurate.

Murray Jorgensen
Chairman

Dr Marilyn Clark-Murphy
Commissioner

Gary Downes
Executive Manager

1 COMMISSION'S MISSION AND FUNDING

The Forest Products Commission (the Commission) is the Western Australian trading enterprise responsible for the allocation and sale of forest products from the State's native forests and from State-owned and State-managed plantations. The Commission is principally a self funded entity.

The Commission's mission is to contribute to Western Australian economic and regional growth by developing the sustainable use of the State's native and plantation timber resources, promoting local value adding for these resources and achieving appropriate returns to the State for the use of publicly-owned and Commission-managed timber resources.

The Commission came into existence on 16 November 2000 as a consequence of the *Forest Products Act 2000*, having previously existed as a division of the Western Australian Government's Department of Conservation and Land Management (DCLM).

2 SIGNIFICANT ACCOUNTING POLICIES

The following accounting policies have been adopted in the preparation of the financial statements. These policies are consistent with those adopted in the previous financial period.

2.01 General statement

The financial statements constitute a general purpose financial report which has been prepared in accordance with Australian Accounting Standards, Statements of Accounting Concepts, other authoritative pronouncements of the Australian Accounting Standards Board and Urgent Issues Group (UIG) Consensus Views as applied by the Treasurer's Instructions. Several of these are modified by the Treasurer's Instructions to vary application, disclosure, format and wording. The Financial Administration and Audit Act and the Treasurer's Instructions are legislative provisions governing the preparation of financial statements and take precedence over Australian Accounting Standards, Statements of Accounting Concepts and other authoritative pronouncements of the Australian Accounting Standards Board and UIG Consensus Views. The modifications are intended to fulfil the requirements of general application to the public sector, together with the need for greater disclosure and also to satisfy accountability requirements.

If any such modification has a material or significant financial effect upon the reported results, details of that modification and where practicable the resulting financial effect, are disclosed in individual notes to these financial statements.

The statements have been prepared on the accrual basis of accounting using the historical cost convention, with the exception of certain non-current assets which subsequent to initial recognition, have been measured on the fair value basis in accordance with the option under AASB1041(5.1). Additions to non-current physical assets since valuation are stated at cost.

Forestry assets and inventories have been valued in accordance with AASB1037 *Self-Generating and Regenerating Assets* (SGARA).

2.02 Grants and other contributions revenue

Grants, donations, gifts and other non-reciprocal contributions are recognised as revenue when the Commission obtains control over the assets comprising the contributions.

Contributions are recognised at their fair value. Contributions of services are only recognised when a fair value can be reliably determined and the services would be purchased, if not donated.

2.03 Depreciation of non-current assets

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of their future economic benefits.

Depreciation is provided for on the straight line basis using rates which are reviewed annually. Useful lives for each class of depreciable asset are:

	2003	2002
Buildings	20 to 40 years	20 to 40 years
Computer equipment	4 years	4 years
Heavy fleet vehicles	5 years	5 years
Infrastructure	20 years	20 years
Motor vehicles	3 to 7 years	3 to 7 years
Office equipment	6 to 7 years	6 to 7 years
Office furniture	6 to 7 years	6 to 7 years
Plant and machinery	4 to 10 years	4 to 10 years

2.04 Valuation of non-current assets

The Commission has adopted by resolution the valuations ascribed to all non-current assets.

Natural resource assets

Natural resource assets have been valued in accordance with the Australian Accounting Standards Board's Accounting Standard 1037(AASB1037) applicable to self-generating and regenerating assets.

Increments/decrements in natural resource asset values have been taken to account as revenue/expenses in the Statement of Financial Performance, as required by AASB1037.

Natural resource assets located on land vested in the Commission by way of the Forest Products Act 2000 or by way of share farm contracts are accounted for in accordance with the provisions of AASB 1037.

Non-commercial values inherent in natural resource assets are not accounted for in the calculation of net market values.

Forestry infrastructure

Current forestry infrastructure expenditure is written off as expenditure is incurred - refer to accounting policy note on Roads and Bridges expenditure below. Due to the absence of a practicable net market value for forestry infrastructure, forestry infrastructure in use at year-end is valued at written down replacement cost. This value is deducted from the net present value of the natural resource assets which it supports, to allow for separate disclosure of self generating and non-self generating assets, as required by AASB 1037.

Land, buildings and infrastructure

The Commission values land, buildings and infrastructure at fair value as per AASB 1041 (Revaluation of Non-Current Assets). A revaluation of the Commission's land, undertaken by Valuation Services (formerly the Valuer General's Office) for the Government Property Register, is recognised in the financial statements. Buildings and infrastructure are revalued every four years.

2.05 Inventories

Inventories have been valued at the lower of cost and net realisable value as per AASB1019. The cost of inventories is deemed to be the net market value immediately after it becomes non-living.

2.06 Receivables

Accounts receivable are recognised at the amounts receivable by the Commission, as they are due for settlement 30 days from the date of recognition.

Collectability of receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for doubtful debts is raised where some doubt as to collection exists.

2.07 Research and development costs

Research and development costs are charged against revenue in the Statement of Financial Performance as incurred.

2.08 Revenue recognition

The Commission recognises revenue when it is probable that the inflow or other enhancement or saving in outflows of future economic benefits has occurred and this inflow or other enhancement or savings in outflows can be measured reliably.

A revenue accrual is made for services supplied to certain share farming investors who are invoiced on a three monthly basis.

Other revenues, such as proceeds from the sale of motor vehicles and miscellaneous revenues, are recognised when control of the goods has passed to the purchaser.

2.09 Employee benefits

Compensated Absences - Annual leave

This entitlement is recognised at current remuneration rates including on-costs and is measured at the amount unpaid at the reporting date in respect to employees' service up to that date.

Compensated Absences - Long service leave

The liability for long service leave expected to be settled within 12 months of the reporting date is recognised in the provisions for employee benefits and is measured at the nominal amounts expected to be paid when the liability is settled. The liability for long service leave expected to be settled more than 12 months from the reporting date is recognised in the provisions for employee benefits and is measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given, when assessing expected future payments, to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted to identify the estimated present value of future cash outflows.

Superannuation

Staff may contribute to the Pension Scheme, a defined benefits pension scheme now closed to new members, or to the Gold State Superannuation Scheme, a defined benefit lump sum scheme now also closed to new members. All staff who do not contribute to either of these schemes become non-contributory members of the West State Superannuation Scheme, an accumulation fund complying with the *Commonwealth Government's Superannuation Guarantee (Administration) Act 1992*.

The liabilities for superannuation charges under the Gold State Superannuation Scheme and West State Superannuation Scheme are extinguished by fortnightly payments of employer contributions to the Government Employees Superannuation Board.

Accrued superannuation represents the Commission's liability at the end of year for employer superannuation contributions to the Government Employees Superannuation Board's Gold State Fund. The Commission receives fortnightly invoices in arrears.

The disclosure note required by paragraph 6.10 of AASB 1028 (being the employer's share of the difference between employees' accrued superannuation benefits and the attributable net market value of plan assets) has not been provided, as State scheme deficiencies are recognised by the State in its Whole of Government reporting. Given the above, the Commission has adopted paragraph 6.10.1 of AASB 1028 which allows non-disclosure if the relevant amounts are not provided.

2.10 Accrued logging costs

Accrued Logging Costs represents the amount owing to harvesting and delivery contractors for timber delivered to sawmills but not yet recorded in the Commission's Accounts Payable system.

2.11 Accrued salaries

Accrued salaries represent the amount due to staff but unpaid at the end of the financial year, where the end of the last pay period for the financial year does not coincide with the end of the financial year.

2.12 Payables

Payables, including accruals not yet billed, are recognised in the accounts payable system when the Commission becomes obliged to make future payments as a result of a purchase of assets or services. Payables are generally settled within 30 days.

2.13 Treasurer's liability

The Treasurer's liability is in respect of a liability incurred in constructing the Manjimup Plant Propagation Centre, which is being repaid over a four year period in equal instalments, repayment having commenced in June 2001. No interest is being charged. The final payment is scheduled to be made in the 2003/04 financial year.

2.14 Interest-bearing liabilities

Western Australian Treasury Corporation loans are recorded at an amount equal to the outstanding balances owing at the end of each reporting period. Borrowing costs associated with these loans have been recognised on an accruals basis.

2.15 Leases

The Commission has no finance leases.

The Commission has entered into a number of operating lease arrangements for buildings, motor vehicles, plant and office equipment where the lessors effectively retain all of the risks and benefits incidental to ownership of the items held under the operating leases. Equal instalments of the lease payments are charged to the Statement of Financial Performance over the lease term as this is representative of the pattern of benefits to be derived from the leased property.

2.16 Roads and bridges expenditure

Forestry road and bridge expenditure is expensed as it is incurred. These costs form part of the ongoing operations of the Commission and are incurred regularly.

2.17 Western Australian Tax Equivalent Regime

Section 43 of the *Forest Products Act 2000* makes the Commission liable for all duties, rates and taxes prescribed by law. Although the Commission is exempt from income tax under section 23(d) of the Income Tax Assessment Act, as a result of section 5 of the *State Enterprises (Commonwealth Tax Equivalents) Act 1996*, the Commission is subject to the *West Australian Tax Equivalent Regime (Income Tax)*. This in effect requires the Commission to account for income tax as if it were not exempt.

2.18 Income tax

The Commission adopts the liability method of tax-effect accounting, as a result of the effect of the West Australian Tax Equivalent Regime. Therefore income tax attributable to operating profit shown in the Statement of Financial Performance is based on the profit from ordinary activities adjusted for any permanent differences. The provision for deferred income tax liability and the future income tax benefit represent the effect of timing differences in the treatment of items for income taxation and accounting purposes.

Permanent differences are those differences between taxable income and operating profit before income tax which arise and will not reverse. Timing differences are those differences between taxable income and operating profit which arise as a result of the different periods in which items are deductible or assessable for income tax purposes. A future income tax benefit is an amount of income tax recoverable by the Commission in future reporting periods, whereas a deferred income tax liability is an amount of income tax to be settled in a future period.

2.19 Recognition of transferred assets and liabilities

Transfers between the West Australian State Government and the Commission are regarded as equity adjustments as per Urgent Issues Group Abstract 38 "Contributions by Owners Made to Wholly-Owned Public Sector Entities".

2.20 Comparative figures

Certain comparative figures are, where appropriate, reclassified so as to be comparable with the figures presented in the current financial year.

2.21 Fair value

As defined by AASB 1041, fair value is regarded as the amount for which an asset could be exchanged or a liability settled between knowledgeable, willing parties in an arms length transaction.

2.22 Goods and Services Tax

The Commission accounts for the Goods and Services Tax (GST) as required by UIG 31. This states that all revenues, expenses and assets must be recognised net of the amount of GST, except for receivables and payables which are stated inclusive of GST. The Commission accounts for GST on an accruals basis and accounts for the net amount of GST recoverable from or payable to the taxation authority as a part of receivables or payables in the Statement of Financial Position.

2.23 Segment reporting

Segment information is prepared in conformity with the accounting policies of the entity as set out under Significant Accounting Policies in these accounts and the segment reporting Accounting Standard AASB 1005 "Segment Reporting".

Segment revenues, expenses, assets and liabilities are allocated on the basis of direct attribution and reasonable estimates of usage. Segment assets and liabilities include income tax equivalent assets and liabilities.

2.24 Rounding

Amounts in the financial statements have been rounded to the nearest thousand dollars, or in certain cases, to the nearest dollar.

2.25 Prior year fundamental errors

During the 2001/02 financial year the Commission discovered that errors had been made in the preparation of the 2000/01 annual financial statements. These errors had a material impact on the interpretation of the prior year annual financial statements. The amounts were brought to account in the 2001/02 financial year's statement of financial performance in accordance with the format prescribed by AASB 1018 "Statement of Financial Performance", and have been detailed in note 4 to the accounts. No fundamental errors were detected in the current year financial year.

2.26 Agency share farming revenue and expenses

The Commission operates two types of share farm arrangements - as principal and as agent. Where the Commission operates as agent, revenues and expenses associated with the share farm arrangement are not recognised as revenues and expenses of the Commission, as these revenues and expenses do not comply with the recognition requirements of revenues and expenses set out in SAC4 "Definition and Recognition of the Elements of Financial Statements" prepared by the Public Sector Accounting Standards Board of the Australian Accounting Research Foundation and by the Australian Accounting Standards Board.

2.27 Cash

For the purpose of the Statement of Cash Flows, cash includes cash assets net of outstanding bank overdraft.

2003 m ³ harvested	2003 (\$'000)	2002 m ³ harvested	2002 (\$'000)
-------------------------------------	------------------	-------------------------------------	------------------

3 Revenue and expenses from natural resource assets

3.1 Revenue from natural resource assets

Revenue from commercial harvesting operations:

Native Forests:

- Harvesting operations
- Recovery of harvesting costs
- Inventory valuations
- Revaluation of forest infrastructure
- Standing timber valuation adjustments¹
- Total Native Forest revenue

534,083	20,423	677,238	27,168
	26,614		32,715
	-		839
	6,681		-
	18,648		22,339
	72,366		83,061
827,361	17,861	808,243	19,026
	26,091		24,594
	2,762		-
	946		5,194
	1,117		-
	48,777		48,814
	121,143		131,875

Plantations:

- Revenue from harvesting operations
- Recovery of harvesting costs
- Inventory valuations
- Plant Propagation Centre revenue
- Contributions to Afforestation Program
- Total Plantation revenue

Total revenues from natural resource assets

3.2 Expenses from natural resource operations

Native Forests:

- Native Forest harvesting costs
- Decrease in inventory valuation

Total expenses from Native Forest natural resource operations

Plantations:

- Plantation harvesting costs
- Decrease in inventory valuation
- Write down of inventory to net realisable value
- Devaluation of forest infrastructure
- Standing timber valuation adjustments¹

Total expenses from Plantations natural resource operations

Total expenses from natural resource operations

27,749	29,422
10	-
27,759	29,422
24,348	23,884
-	440
584	1,517
2,507	-
4,969	23,564
32,408	49,405
60,167	78,827

¹ Decrease in the valuation of Plantations and increase in value of Native Forests is associated with increased allocation of organisational overhead costs to the plantation division of the organisation. This is as a result of the organisation's strategy for an increased focus on the plantation operations due to reduction in activity in native forest operations.

4 Prior year fundamental errors

4.1 Prior year fundamental error in inventory valuation

Cost of sales for the 2001/02 financial year includes the effect of the following adjustment which arose due to the under-valuation of Sandalwood and Plant Propagation Centre inventories as at 30 June 2001. The error resulted from the incorrect application of AASB 1019 "Inventories". Paragraph 5.6 of AASB 1037 "Self Generating and Regenerating Assets" deems cost for the purpose of AASB 1019 to be the net market value of inventory immediately after such inventory becomes non-living, while in the 2000/01 accounts cost was based on average cost.

Restated inventory values are as follows:	Valuation: Incorrect (\$'000)	Valuation: Correct (\$'000)	Net increase in inventory value (\$'000)
Inventory valuations as at 30 June 2001:			
Sandalwood	1,759	5,559	3,800
Plant Propagation Centre	4,290	7,476	3,186
	<u>6,049</u>	<u>13,035</u>	<u>6,986</u>
Income tax equivalent expense			-
Net increase in inventory valuation			<u>6,986</u>

This error had the effect of understating assets and revenue in 2000/01 by the net increase in inventory value above.

4.2 Prior year fundamental error in valuation of natural resource assets

A calculation error in the June 2001 valuation of commercial forestry operations resulted in the valuation being understated by \$3,219,000.

Restated natural resource assets valuation is as follows:	Valuation: Incorrect (\$'000)	Valuation: Correct (\$'000)	Net increase in inventory value (\$'000)
Natural resource assets valuation as at 30 June 2001:			
Plantation natural resource assets valuation	196,098	199,317	3,219
	<u>196,098</u>	<u>199,317</u>	<u>3,219</u>
Income tax equivalent expense			-
Net increase in valuation after income tax equivalent expense			<u>3,219</u>

This error had the effect of understating assets and overstating expenses in 2000/01 by the net increase in valuation above.

Plantations

Plantations standing timber	7%	7%
Plantations Reforestation Program	10%	10%

Discount rates were independently verified in the 2001/02 financial year by Ernst and Young.

Details of the timber volumes data and the net present value calculations upon which these valuations are based, are contained in the Commission's working papers.

21.1 Source of valuation of natural resource assets

The net market value of the natural resource assets has been determined in accordance with a Commissioner's valuation.

21.2 Sensitivity analysis

Sensitivity of the net market value of the commercial forestry operation to changes in significant assumptions:

			2003 (\$'000)	2002 (\$'000)
			Increase/ (decrease)	Increase/ (decrease)
Discount rate:	+ 3%	Total natural resource assets at valuation	(81,325)	(75,792)
	- 3%	Total natural resource assets at valuation	139,975	129,458
Future costs:	+ 3%	Total natural resource assets at valuation	(7,922)	(78,265)
	- 3%	Total natural resource assets at valuation	7,535	64,265
Future income:	+ 3%	Total natural resource assets at valuation	16,826	289,567
	- 3%	Total natural resource assets at valuation	(17,214)	(133,281)

Note: The method of calculating the sensitivity analysis was amended in 2002/03 financial year to ensure consistency between the methods of applying cost and income sensitivity assumptions and the 'real' discount rate assumption.

22 Payables

Current

Trade payables

4,684	3,444
4,684	3,444

23 Interest bearing liabilities

² Refer note 34 for interest rate analysis.

	2003 (\$'000)	2002 (\$'000)
24 Provisions		
<i>Current</i>		
Compensated Absences - Annual leave ¹	1,311	936
Compensated Absences - Long service leave ¹	1,253	789
	2,564	1,725
<i>Non-current</i>		
Compensated Absences - Long service leave ¹	1,014	842
	1,014	842
<i>Employee Benefits (refer note 2.09)</i>		

The aggregate employee benefit liability recognised and included in the financial statements is as follows:

Provision for employee benefits:

Current:

- Provisions	2,564	1,725
- Accrued salaries and wages (refer note 25)	297	255

Non-current:

- Provisions	1,014	842
	3,875	2,822

¹Annual and long service leave expense increased in 2002/03 due to additional on-costs now being accounted for in accordance with the provisions of AASB 1028.

The Commission considers the carrying amount of employee benefits to approximate fair value - refer note 2.21.

25 Other liabilities

Current

Payroll tax accrual	99	50
Accrued expenses		
~ Accrued logging costs	2,567	2,337
~ Compensation for logging contractors	-	47
~ Other commitments	4,130	2,104
Accrued interest	-	1,366
Accrued salaries and wages	297	255
Unearned revenue ²		
~ Manjimup nursery	188	98
~ Southwest share farm project	1,074	232
Statutory dividend	1,557	-
Treasurer's liability ¹	1,436	1,436
	11,348	7,925

Non-Current

Treasurer's liability ¹	-	1,436
	-	1,436

¹ Comprises Treasurer's liability for funding the construction of the Manjimup Plant Propagation Centre

Less: repayment during the period

	2,873	4,309
	(1,436)	(1,436)

Total Treasurer's liability

² Unearned revenue is attributable to cash having been received or risk having passed, while the service/product has not yet been invoiced - refer Note 2.08.

	2003 (\$'000)	2002 (\$'000)
--	------------------	------------------

26 Contributed equity

Contribution by owners, the Western Australian State Government, represents amounts transferred on establishment of the Commission and net contributions since establishment, transferred from the Department of Conservation and Land Management (DCLM).

The following assets and liabilities have been contributed to equity:

Contributions/(distributions) since formation of the Commission

Assets transferred	168	42
Reappropriation from Consolidated Funds ²	1,269	-
Total contribution by owners¹	1,437	42

Reconciliation:

Contribution by owners at the beginning of the financial period	228,872	228,830
Amounts contributed during the financial period	1,437	54
Amounts refunded during the financial period	-	(12)
Contribution by owners at the end of the financial period	230,309	228,872

¹ The amounts recorded above represent the fair value of assets and liabilities transferred from the Western Australian Government. The fair values of these assets and liabilities may have changed during the period to yield values accounted for at the financial period end. The amounts transferred have been treated as equity as per Urgent Issues Group (UIG) Abstract 38 - Contributions by Owners Made to Wholly-Owned Public Sector Entities - paragraph (7) (b) and (c).

² Reappropriation from the Consolidated Funds arising out of the sale of Peel 'B' Baldivis plantation land sale proceeds.

27 Reserves

Asset Revaluation Reserve		
Opening balance	18	-
Net revaluation increments/(decrements):		
Land	(18)	18
Closing balance	-	18

Retained profits/(accumulated losses)

Opening balance	10,895	(4,083)
Net profit for the period ²	14,500	13,310
(Increase)/ decrease in provision for statutory dividend	(1,557)	1,668
Closing balance	23,838	10,895

¹ Revaluations as per Valuation Services (formerly Office of the Valuer General)

² The 2001/02 financial year profit includes the effect of the prior year fundamental errors of \$10,205,000. Refer Note 4.

	2003 (\$'000)	2002 (\$'000)
28 Notes to the Statement of Cash Flows		
28.1 Reconciliation of cash		
Cash assets	4	4
Bank Overdraft - refer note 23	(1,967)	(2,314)
	(1,963)	(2,310)
28.2 Financing and investing activities		
During the financial period assets and liabilities were either transferred or assumed - refer note 26.		
Assets acquired - non cash:		
Assets transferred	168	42
Other - cash:		
Reappropriation from Consolidated Funds	1,269	-
Equity contributed by owners	1,437	42
28.3 Reconciliation of profit from ordinary activities after income tax equivalents to net cash flows provided by/(used in) operating activities		
Profit from ordinary activities after income tax equivalents	14,500	13,310
<i>Non-cash items:</i>		
Depreciation expense	1,974	1,954
Doubtful debt expense	634	650
Amounts credited for proceeds on sale of Peel B land	-	(1,355)
Amounts from Commonwealth grants and contributions	(55)	(185)
Disposal of non-current assets	(7)	(9)
Amounts for income tax equivalents	5,622	2,158
Revaluation of land and buildings	66	-
Revaluation of timber assets, land and infrastructure	(17,853)	(1,994)
<i>(Increase)/decrease in assets:</i>		
Current inventories	2,002	(5,867)
Current receivables ¹	1,200	(531)
Other current assets	(470)	(182)
<i>Increase/(decrease) in liabilities:</i>		
Current payables	1,240	(3,398)
Provisions	1,011	201
Other liabilities	1,868	(1,924)
Grants and Subsidies from government	(1,569)	(500)
Taxation equivalents paid	(191)	(2,869)
Net cash provided by/(used in) operating activities	9,972	(541)

¹ Australian Taxation Office amounts receivable/payable in respect of GST and amounts receivable/payable in respect of the sale/purchase of non-current assets are not included in these items as they are not cash transactions and do not form part of the Statement of Cash Flows.

28.4 Borrowing facilities

At 30 June 2003 the Commission had undrawn financing facilities of \$9.2m (2002 \$61k) available from the WA Treasury Corporation.

29 Resources provided free of charge

During the financial year and in the financial year to 30 June 2002, no resources were provided to other agencies free of charge for functions outside the normal operations of the Commission.

	2003 (\$'000)	2002 (\$'000)
30 Commitments for expenditure		
30.1 Expenditure commitments		
Expenditure commitments, being contracted expenditure additional to the amounts reported in the financial statements, are payable as follows:		
Within 1 year	5,300	5,120
Later than 1 year and not later than 5 years	22,220	15,780
Later than 5 years	-	-
	27,520	20,900

The commitments are largely in support of the *Wood Processing (WESFI) Agreement Act 2000* - Plantations Afforestation program, to be funded by way of loans from Western Australian Treasury Corporation.

30.2 Lease commitments

Commitments in relation to leases contracted for at the reporting date but not recognised as liabilities, are payable as follows:

Within 1 year	2,018	1,847
Later than 1 year and not later than 5 years	7,031	7,168
Later than 5 years	8,649	3,393
	17,698	12,408
Non-cancellable operating leases	17,698	12,408

These commitments are inclusive of GST

Contingent rental payments have been determined based on existing rental agreements, escalation clauses, payments and lease periods. Renewal options, where applicable, have not been brought to account.

30.3 Guarantees and undertakings

The Commission has no guarantees and/or undertakings that have not been provided for in the Statement of Financial Position other than those disclosed in this note.

31 Contingent assets and liabilities

31.1 Liabilities

The Commission has no contingent liabilities as at 30 June 2003 (nil at 30 June 2002).

31.2 Assets

The Commission has a contingent asset relating to sequestered carbon and biomass for energy generation. The value of this asset is dependent upon the Australian Government ratifying the Kyoto Protocol and/or the establishment of a carbon trading regime within Australia.

32 Events occurring after reporting date

There were no events that occurred after balance date, other than events for which the financial effects have already been brought to account, that will have a material effect on the Statement of Financial Position or Statement of Financial Performance as at 30 June 2003. The effects arising from the State Government Forest Management Plan announced on 14 July 2003 have been factored into the affected standing timber valuations.

33 Explanatory statement

Explanations on any line item with a variance of greater than ten percent have been provided.

33.1 Explanation of significant variations between current and prior year actual results

	2003 (\$'000)	2002 (\$'000)	Variance %	Notes:

Income tax equivalent expense	5,622	2,158	161%	11

Profit from ordinary activities

after income tax equivalent expense	<u>14,500</u>	<u>13,310</u>	9%	
--	----------------------	----------------------	----	--

Notes:

- 1 \$3m favourable variance attributable to Standing Timber and Forest Infrastructure valuations. \$13m adverse variance due to the effect of the implementation of the government's 'Protecting our Old Growth Forests' policy, Regional Forest Agreement and business exits. Refer note 3.1.
- 2 \$16m favourable variance due to reduction in Standing Timber and infrastructure devaluation. Refer note 3.1.
- 3 Fundamental errors relating to 2000/01 financial year, corrected in the 2001/02 financial year.
- 4 Variance attributable to reduction in forestry share farming agency services.
- 5 Variance reflects decrease in Commonwealth funded research and development work.
- 6 Increase in cost recoups - mainly fire related activities.
- 7 Increased State contributions to Forest Enhancement Program and increased contribution towards cost of non-commercial debt.
- 8 Peel B land sale proceeds accounted for in accordance with UIG38 - equity contribution this financial year.
- 9 Variance due to lower nursery activity, reduced share farming agency services and Native Forest activity.
- 10 Variance reflects cost savings associated with lower forestry activity offset by increased provision for doubtful debts.
- 11 Increase in provisions for deferred taxation.

33.2 Comparison of 2002/03 actual results to estimated results

Explanations for significant variations greater than ten percent between estimated and actual revenues and expenditures have been provided.

	2003 actual (\$'000)	2003 estimate (\$'000)	Variance %	Notes
Note 3 to the statement of financial performance				
Revenue and expenses from natural resource assets				
3.1 Revenue from natural resource assets				
- Native Forests revenue	72,366	44,672	62%	1
- Plantations revenue	48,777	45,054	8%	
Total revenues from natural resource assets	121,143	89,726	35%	
3.2 Expenses from natural resource operations				
- Native Forests	27,759	22,379	24%	2
- Plantations	32,408	22,083	47%	3
Total expenses from natural resource operations	60,167	44,462	35%

Statement of financial performance				
REVENUE				
Revenues from ordinary activities				
<i>Revenue from operating activities</i>				
Revenue from natural resource assets	121,143	89,726	see above	
Revenue from commercial share farm operations	1,494	2,068	(28%)	4
Grants & contributions from Commonwealth Government	55	-	100%	5
Other revenue from ordinary activities	2,605	2,520	3%	
Grants and subsidies from State Government	1,570	1,570	-	
<i>Revenue from non-operating activities</i>				
Other revenue from non-operating activities	121	-	100%	6
Total revenue from ordinary activities	126,988	95,884	32%	
EXPENSES				
Expenses from ordinary activities				
Expenses from natural resource operations	60,167	44,462		see above
Employee expenses	13,012	12,001	8%	
Supplies and services	23,491	27,676	(15%)	7
Depreciation expense	1,974	1,932	2%	
Borrowing costs expense	6,331	6,450	(2%)	
Administration expenses	1,337	443	202%	8
Accommodation expenses	554	519	7%	
Total expenses from ordinary activities	106,866	93,483	14%	
Profit from ordinary activities before income tax equivalent expense	20,122	2,401	738%	
Income tax equivalent expense	5,622	-	100%	9
Profit from ordinary activities after income tax equivalent expense	14,500	2,401	504%	

Notes:

- 1 \$25m of variance due to revaluation of Standing Timber and Forest Infrastructure. Balance due to conservative approach taken at the time of budget preparation due to market uncertainty associated with the implementation of government's Protecting our Old Growth Forests policy and business exits.
- 2 Attributable to resource activity and product mix.
- 3 \$7.4m attributable to devaluation of plantations and infrastructure. Balance attributable to resource activity and product mix.
- 4 Variance attributable to reduction in share farming agency forestry services.
- 5 Non-budgeted for revenue.
- 6 Non-budgeted for revenue.
- 7 Variance due to savings in non core operational costs.
- 8 Variance mainly attributable to devaluation of land and buildings, provision for doubtful debts expenses and marketing costs for Infinitree™.
- 9 Due to movements in deferred tax balances arising from timing differences associated with natural resource asset and in-forest infrastructure valuation movements.

34 Financial instruments

34.1 Interest rate risk exposure

The following table details the Commission's exposure to interest rate risk as at the reporting date.

2003							
	Weighted Average Effective Interest Rate %	Variable Interest Rate \$'000	Fixed Interest Rate - Maturity			Non Interest Bearing \$'000	Total \$'000
			Less than 1 Year \$'000	1 to 5 Years \$'000	More than 5 Years \$'000		
Financial Assets							
Cash assets	-					4	4
Receivables	-					13,219	13,219
WA Treasury Corporations prepayments	4.66	249				-	249

Finance lease liabilities							Nil
Accrued interest						1,366	1,366
Amounts due to the Treasurer						2,872	2,872
		2,314	2,424	10,254	67,398	7,682	90,072

2003
(\$'000)

2002
(\$'000)

Summary

Financial assets	15,126	17,976
Financial liabilities	81,683	90,072

34.2 Credit risk exposure

Accounts receivable largely consists of timber debtors, for which deposits and securities equivalent to an average of six weeks deliveries are required to be lodged in favour of the Commission under timber contracts of sale. These deposits and securities are held in trust until the expiry or default of contracts. However, as at 30 June 2003, the value of overdue accounts exceeded deposits and securities by \$1.1m (2002 \$1.3m).

In addition to securities, protection of the Commission's interest is provided in that forest produce is the property of the Crown until forest produce charges are paid. In the instance of default of payment, forest produce may be seized and disposed of under a statutory retention right.

The Commission's credit risk exposure at 30 June 2003 is illustrated by the aged debtors table below:

	2003 Number of customers	2003 Value overdue ¹ : (\$'000)	2002 Number of customers	2002 Value overdue ¹ : (\$'000)
1 to 30	24	1,781	28	1,419
31 to 60	12	271	12	853
Greater than 60	36	1,182	44	1,431
All overdue accounts	72	3,234	84	3,703

¹Overdue beyond the Commission's 30 day trading terms.

The likelihood of recovery as at 30 June 2003, was estimated and factored into the amount of \$1,342,000 (2002 \$707,000) provided for doubtful debts (refer note 17).

34.3 Fair values

The carrying amount of financial assets and financial liabilities recorded in the financial statements are not considered materially different from their fair values, determined in accordance with the accounting policies disclosed in Note 2 to the financial statements, in particular Note 2.21.

The Commission's borrowings of \$73.596m (2002 \$80.076m) from the Western Australian Treasury Corporation (WATC) have been assessed by the WATC to have a net fair value of \$79.498m (2002 \$84.916m) as at 30 June 2003. The net fair value of a financial liability is the amount at which the liability could be settled in a current transaction after allowing for the premium required if debt is settled prior to the due date.

2003 (\$'000)	2002 (\$'000)
------------------	------------------

35 Taxation equivalent

The prima facie income tax equivalent¹ on pre-tax accounting profit reconciles to the income tax equivalent in the statement of financial performance as follows:

Profit from ordinary activities before income tax equivalent expense	20,122	15,468
Income tax equivalent expense calculated at 30% (2002 30%) of operating profit	6,037	4,640
<i>Permanent differences: (refer Note 2.18)</i>		
Non-deductible travel expenses	11	7
Research and development concession	(89)	(78)
Revaluation of natural resource assets	1,717	367
Depreciation of forest infrastructure	210	(210)
Portion of fundamental error due to error in revaluation of natural resource assets	-	(966)
Employee Provisions - opening balance	(659)	-
Unrealised revaluation in forest assets - prior year	(4,207)	-
Capitalised Plantations afforestation program expenditure	2,602	(1,557)
Change in tax rate 2001/02	-	(46)
Income tax equivalent expense attributable to profit from ordinary activities	5,622	2,157
Income tax equivalent expense comprises movements in:		
Provision for tax equivalent expense	589	250
Provision for deferred tax equivalent expense	8,275	2,256
Future tax equivalent expense benefit	(3,242)	(348)
Total income tax equivalent expense	5,622	2,158

	2003 (\$'000)	2002 (\$'000)
Deferred tax assets		
Future income tax benefit - timing differences ¹	4,265	1,023
Reconciliation:		
Reconciliations of the carrying amounts of future income tax equivalent benefits at the beginning and end of the current financial period are set out below.		
Carrying amount at start of period	1,023	675
Amount arising during the period	3,242	348
Carrying amount at end of period	<u>4,265</u>	<u>1,023</u>
Deferred tax liabilities		
Provision for deferred income tax equivalent liabilities ¹	10,541	2,266
Reconciliation:		
Reconciliations of the carrying amounts of deferred income tax equivalent liabilities at the beginning and end of the current financial period are set out below.		
Carrying amount at start of period	2,266	10
Amount arising during the period	8,275	2,256
Carrying amount at end of period	<u>10,541</u>	<u>2,266</u>
Provision for income tax equivalent expense		
Provision for income tax equivalent at start of period	109	2,728
Income tax equivalent expense paid in period	(191)	(2,869)
Income tax equivalent expense for the period	5,622	2,158
Effect of future income tax equivalent benefit arising in the period	3,242	348
Effect of provision for deferred income tax equivalent arising in the period	(8,275)	(2,256)
Provision for income tax equivalent expense at end of period	<u>508</u>	<u>109</u>
¹ Increase in deferred tax balances due to bringing to account of deferred tax on timing differences related to natural resource assets and in-forest infrastructure, for the first time in the 2002/03 financial year.		
36 Provision for dividend		
Provision for declared dividend	1,557	-
	<u>2003</u>	<u>2002</u>

37 Remuneration of Members of the Accountable Authority and Senior Officers

Remuneration of Members of the Accountable Authority

The number of Members of the Accountable Authority (Commissioners) whose total of fees, salaries, superannuation¹ and other benefits received, or which are due and receivable, for the financial year which fall within the following bands, is as follows:

\$			
5,000 - 10,000	0	0	
10,000 - 20,000	3	4	
20,000 - 30,000	3	2	
30,000 - 40,000	0	1	
40,000 - 50,000	0	0	
50,000 - 60,000	1	0	
	<u>7</u>	<u>7</u>	

The total remuneration of Members of the Accountable Authority for the financial period was:

<u>185</u>	<u>129</u>
------------	------------

¹ No Commissioner is a member of the Pension Scheme.

Remuneration of Senior Officers

The number of Senior Officers (members of the Commission's Corporate Executive), other than Members of the Accountable Authority, whose total of fees, salaries, superannuation and other benefits received, or which are due and receivable, for the financial year which fall within the following bands, is as follows:

\$			
20,000 - 30,000		0	2
30,000 - 40,000		0	1

The total remuneration of Senior Officers for the financial period was:

38 Related/affiliated bodies

The Commission has no related or affiliated bodies as defined by TI 951 (3) to (6)

	2003 (\$'000)	2002 (\$'000)
--	------------------	------------------

39 Remuneration of auditor

The total fees due and payable to the Auditor General for the financial period is as follows:

Auditing the accounts, financial statements and performance indicators	<u>64</u>	<u>44</u>
--	-----------	-----------

40 Funds held in trust

Funds held in trust¹ as security for contract obligations. These funds are repayable on completion of contracts.

Opening Balance	885	123
Receipts ²	357	812
Payments	(368)	(50)
Closing Balance	<u>874</u>	<u>885</u>

¹ Trust funds do not form part of the assets of the Commission, and are held in a separate trust fund established for that purpose. Interest accruing on these funds accumulate for the benefit of security providers.

² \$694,000 of the prior year receipts was attributable to a transfer from DCLM, relating to deposits on hand prior to 16th November 2000

41 Supplementary information

41.2 Losses through theft, defaults and other causes	Nil	Nil
41.3 Gifts of public property	Nil	Nil

42 Segment information

Segment information has been disclosed by output.

The two key segments of the Commission are:

Segment 1: Native Forest Operations Division

The Native Forest Operations Division is responsible for the planning, harvesting and sale of forest products from indigenous forests on State-owned land.

Segment 2: Plantations Operations Division

The Plantations Operations Division has three main operating arms - the Plantations Branch which covers State-owned plantations, Share Farms which has the responsibility of share farming agreements with landowners; and the Propagation Branch which produces seedlings for internal needs as well as for external customers.

The Commission operates within one geographical segment (Western Australia).

43 Research and Development Expenditure

43.1 Research and Development expenditure

1,187	2,468
-------	-------

Expenses associated with research and development are included in expenses from ordinary activities.

The Forest Products Commission is a member of CRC Wood Innovations, a Cooperative Research Centre for Innovative Wood Manufacturing, based at The University of Melbourne. The Commission has a payment commitment of \$100,000 per year until 2008 together with in-kind contributions of approximately \$65,000 per year.

43.2 Plantation Industry Ministerial Advisory Committee (PIMAC)

17	-
----	---

Expenses associated with PIMAC are included in expenses from ordinary activities.

The Minister for Agriculture, Forestry and Fisheries established an advisory committee on 1 July 2002 from a wide range of industry and community groups to provide advice on matters affecting the plantation industry. Expenditure incurred relates to member travel, accommodation and fees in attending meetings, as well as FPC staff support.

44 Advertising and communication expenditure

In accordance with S175 ZE of the Electoral Act 1907, the Commission incurred the following expenditure in advertising, market research, polling, direct marketing and media advertising:

- Total expenditure for 2002/03 was \$422,907 (2001/02 \$95,402)
- Expenditure was incurred in the following areas:

		2003	2002

45 Additional information

The following additional information is provided in terms of the requirements of AASB 1034 (5.1)

Domicile and legal form:

The Forest Products Commission is a Government Trading Enterprise domiciled in Western Australia.

Principal office:

Level 1/117 Great Eastern Highway, Rivervale, Perth, Western Australia, Australia.

Operations and principal activities:

The Forest Products Commission is responsible for the commercial production, allocation and sale of forest products from Western Australia's native forests and from State-owned and managed plantations.

Parent entity:

Government of Western Australia.

Number of employees at year end:

	2003	2002
Number of employees ¹ :	184	187

¹Refer 'Our People' report.

AUDITOR GENERAL

INDEPENDENT AUDIT OPINION

To the Parliament of Western Australia

FOREST PRODUCTS COMMISSION FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2003

Audit Opinion

In my opinion,

- (i) the controls exercised by the Forest Products Commission provide reasonable assurance that the receipt and expenditure of moneys, the acquisition and disposal of property, and the incurring of liabilities have been in accordance with legislative provisions; and
- (ii) the financial statements are based on proper accounts and present fairly in accordance with applicable Accounting Standards and other mandatory professional reporting requirements in Australia and the Treasurer's Instructions, the financial position of the Commission at June 30, 2003 and its financial performance and cash flows for the year ended on that date.

Scope

The Commission's Role

The Commission is responsible for keeping proper accounts and maintaining adequate systems of internal control, preparing the financial statements, and complying with the Financial Administration and Audit Act 1985 (the Act) and other relevant written law.

The financial statements consist of the Statement of Financial Performance, Statement of Financial Position, Statement of Cash Flows and the Notes to the Financial Statements.

Summary of my Role

As required by the Act, I have independently audited the accounts and financial statements to express an opinion on the controls and financial statements. This was done by looking at a sample of the evidence.

An audit does not guarantee that every amount and disclosure in the financial statements is error free. The term "reasonable assurance" recognises that an audit does not examine all evidence and every transaction. However, my audit procedures should identify errors or omissions significant enough to adversely affect the decisions of users of the financial statements.

D D R PEARSON
