# Foreword

This *Quarterly Financial Results Report* (QFRR) provides financial results for the Western Australian public sector for the six months to 31 December 2010.

Care should be exercised in extrapolating the likely outcome for the 2010-11 year based on the quarterly results to date, particularly in light of the seasonal and other timing factors that impact the State's finances. The timing of grant revenue (from the Commonwealth) and grant payments can also be volatile, making comparisons between quarterly reporting periods difficult. The impact of Commonwealth stimulus spending, where it is on-passed through the State, also distorts both revenue and spending.

The focus of the State budget is the net operating balance for the general government sector. The presentation in this report is consistent with that used in the 2010-11 *Government Mid-year Financial Projections Statement* (mid-year review) released on 17 December 2010, and the 2010-11 State Budget presented to Parliament on 20 May 2010.

The financial statements in this report have been prepared in accordance with applicable Australian Accounting Standards including AASB 134: *Interim Financial Reporting* and AASB 1049: *Whole of Government and General Government Sector Financial Reporting*.

This report also includes Appendix 3: *Public Ledger* which summarises information on the Consolidated Account, Treasurer's Special Purpose Accounts and the Treasurer's Advance.

Information presented in this QFRR is not audited.

# Overview

## Summary

The Western Australian public sector recorded strong financial outcomes across all sub-sectors during the six months to 31 December 2010. These results are consistent with the revised outturn published in the 2010-11 mid-year review released on 17 December 2010 and include significant timing issues relative to the same period in 2009-10.

The general government sector recorded an operating surplus of \$1,106 million for the six months to 31 December 2010. This is a significant turnaround on the \$259 million deficit reported for the same period in 2009-10.

- General government sector revenue in the six months of 2010-11 grew by \$2,126 million (or 20.9%), compared with the same period last year. This outcome is mainly due to higher royalty revenue and tax collections (which partly reflects the removal of concessional iron ore ‘fines’ royalty rates and a one-off contribution of \$350 million from BHP Billiton and Rio Tinto due to changes to State Agreements Acts), and the earlier receipt of Commonwealth education funding.
- General government sector expenses increased by \$761 million (or 7.3%), mainly reflecting higher salaries and current transfer (i.e. grants) costs, including a one-off payroll tax rebate.

The Western Australian total public sector recorded a \$1,505 million operating surplus in the first half of 2010-11. This result was mainly due to the general government operating surplus, and smaller surpluses in the public corporations sectors.

Total public sector net worth increased by \$2.9 billion over the six months to 31 December 2010, to stand at \$110.7 billion.

Total public sector net debt was \$10.3 billion at 31 December 2010, \$446 million higher than the \$9.9 billion recorded at 30 June 2010.

## General Government Sector

The general government sector recorded an operating surplus of \$1,106 million for the six months to 31 December 2010. This is a \$1,365 million turnaround on the \$259 million deficit reported for the same period in 2009-10.

This outcome was largely driven by a stronger revenue performance in the second quarter of 2010-11, reflecting higher iron ore royalty income, higher taxation collections and higher Commonwealth capital grants. These outcomes are consistent with the full-year projection contained in the December 2010 mid-year review.

Table 1

### SUMMARY OF GENERAL GOVERNMENT FINANCES

#### Western Australia

	2010-11		2009-10	
	Six Months to 31 Dec	Estimated Outturn <sup>(a)</sup>	Six Months to 31 Dec	Actual <sup>(b)</sup>
	\$m	\$m	\$m	\$m
Net operating balance	1,106	758	-259	831
Net worth	110,499	112,495	107,839	107,844
Increase in cash balances	-569	-1,302	-1,216	1,012
<i>Memorandum items</i>				
Net lending	273	-1,779	-1,045	-1,058
Net debt	-446	1,436	-720	-1,076
Cash surplus/-deficit	-121	-1,808	-1,467	-867

(a) Consistent with the revised outturn published in the 2010-11 mid-year review, released 17 December 2010.

(b) Consistent with final audited data contained in the 2009-10 *Annual Report on State Finances*, released 28 September 2010.

## Revenue

Revenue for the six months to 31 December 2010 totalled \$12,274 million, up \$2,126 million or 20.9% on the same period in 2009-10. This growth primarily reflects:

- higher royalty income (up \$964 million), due mainly to higher production volumes and prices for iron ore, an increase in the royalty rate for iron ore fines in State Agreements Acts, and a one-off back-payment of \$55 million relating to the Robe River Mesa J Mine, partially offset by the effect of a stronger Australian dollar;
- higher taxation revenue (up \$509 million), reflecting:
  - a one-off contribution from Rio Tinto and BHP Billiton (\$350 million) in response to changes to State Agreement Acts<sup>1</sup>; and
  - higher payroll tax collections (up \$135 million), due to stronger labour market conditions;

<sup>1</sup> The Government announced in December 2010 that this contribution, together with the Mesa J royalty back-payment noted above and \$100 million in higher than expected royalty collections at the end of 2009-10, will be used to fund the construction of the New Children's Hospital, with building work to commence in 2012.

- higher Commonwealth capital grants (up \$429 million), which is primarily due to higher funding for *Primary Schools for the 21<sup>st</sup> Century* program and increased funding for non-government schools;
- higher sale of goods and services (up \$128 million), largely due to increased demand for goods and services and the timing of transactions across the general government sector; and
- lower transfer duty (down \$89 million) and GST grants (down \$19 million).

## Expenses

Expenses for the six months to 31 December 2010 totalled \$11,169 million, up 7.3% on the same period in 2009-10. This outcome primarily reflects:

- higher current transfers (up \$228 million), due largely to the net effect of:
  - a payroll tax rebate of \$97 million paid to eligible employers, an initiative outlined in the 2009-10 State Budget;
  - lower general government funding to the Housing Authority (down \$62 million), predominantly due to an offsetting dividend to be received from Keystart (a public financial corporation);
  - higher on-passed grant payments to external health providers (up \$52 million), mainly for Home and Community Care programs, aged care and patient transport services and mental health services;
  - higher ex-gratia payments under the WA Redress program and seniors cost of living rebate payments (up \$47 million);
  - higher on-passed grants by the Office of Native Title under the Yawuru Agreements (up \$38 million);
  - lower on-passed education grants (down \$36 million), mainly due to a one-off Commonwealth grant payment for the Catholic education sector received in 2009-10;
  - higher grant payments by the Department of Regional Development and Lands (up \$29 million) for the Pilbara Revitalisation Plan Phase 2;
  - higher *Royalties for Regions* payments to the Land Authority (up \$25 million), for the South Headland town centre revitalisation initiative; and
  - higher funding for disability service providers (up \$18 million), as a result of new initiatives under the State business plan and the National Disabilities Agreement;
- higher services and contracts expense (up \$219 million), primarily due to spending on school maintenance and increased health sector spending on contract services; and
- higher salaries costs (up \$201 million, or 4.9%), due mainly to increased pay rates and staff numbers, particularly in the health, education and training, and law and order sectors (accounting for around 74.5% of the total increase).

## **Balance Sheet**

The net worth of the general government sector increased by \$2.9 billion for the six months to 31 December 2010, to stand at \$110.7 billion. This increase reflects the general government operating surplus outlined above, operating surpluses in the public corporations sectors and estimated revaluations of land holdings.

The general government sector continued to be net debt-free during the first six months of 2010-11, with financial assets exceeding borrowings and other debt liabilities by \$446 million at 31 December 2010.

## **Cash Flow**

A cash deficit of \$121 million was recorded for the six months ended 31 December 2010. This was \$1.3 billion lower than the cash deficit for the same period in 2009-10 and was primarily due to the impact of the operating surplus recorded for the first half of 2010-11.

Net cash outflows for infrastructure spending totalled \$1,254 million, up \$57 million from the same period in 2009-10. This increase mainly reflects spending on the Fiona Stanley Hospital and other health infrastructure.

## Total Public Sector<sup>2</sup>

The total public sector recorded an operating surplus of \$1,505 million for the six months to 31 December 2010. This is \$1,115 million higher than the surplus recorded in the same period in 2009-10, with operating surpluses recorded in the general government and public corporations sectors.

Table 2

### SUMMARY OF TOTAL PUBLIC SECTOR FINANCES Western Australia

	2010-11		2009-10	
	Six Months to 31 Dec	Estimated Outturn <sup>(a)</sup>	Six Months to 31 Dec	Actual <sup>(b)</sup>
	\$m	\$m	\$m	\$m
Net operating balance	1,505	225	401	859
Net worth	110,702	112,495	107,839	107,844
Increase in cash balances	-725	-2,029	-385	2,125
<i>Memorandum items</i>				
Net lending	-552	-3,611	-1,291	-4,232
Net debt	10,341	14,009	8,590	9,896
Cash surplus/-deficit	-647	-4,302	-2,042	-2,816

(a) Consistent with the revised outturn published in the 2010-11 mid-year review, released 17 December 2010.

(b) Consistent with final audited data contained in the 2009-10 *Annual Report on State Finances*, released 28 September 2010.

### Operating Statement

The total public sector operating surplus for the first six months of 2010-11 includes the combined impact of:

- the \$1,106 million operating surplus for the general government sector (noted above);
- a public non-financial corporations sector operating surplus of \$158 million, \$164 million lower than the surplus recorded for the same period 2009-10, primarily due to lower subsidies for the Housing Authority (in anticipation of dividend funding to be received from Keystart later in 2010-11) and lower National Partnership revenue from the Commonwealth; and
- a public financial corporations sector operating surplus of \$302 million which compares to a \$434 million surplus recorded in the same period last year. The decrease in the surplus of \$132 million on the same period last year is mainly due to lower net investment income for the Insurance Commission of Western Australia.

<sup>2</sup> The total public sector (also known as the whole-of-government) consolidates the general government sector (discussed in the previous section), the public non-financial corporations sector (which includes entities such as the electricity utilities, Water Corporation, ports and the Public Transport Authority), and the public financial corporations sector (including agencies such as the Western Australian Treasury Corporation and the Insurance Commission of Western Australia).

## **Balance Sheet**

The value of the total public sector balance is identical to that of the general government sector in terms of net worth. This is because the net worth of the public corporations is recognised as an investment asset of the general government sector.

Net debt of the total public sector increased by \$445 million during the first six months of 2010-11, to stand at \$10.3 billion at 31 December 2010. This reflects the effect of the State's substantial Asset Investment Program which is forecast to be \$7.6 billion in 2010-11.

## **Cash Flow**

A cash deficit of \$647 million was recorded for the six months ended 31 December 2010 compared with a \$2.0 billion deficit for the same period in 2009-10. The lower deficit outcome reflects the net cash impact of the operating surplus outlined above and net cash outflows for infrastructure spending of \$3.0 billion for the six months ended 31 December 2010.

Infrastructure spending for the six months to 31 December 2010 was \$338 million (or 11.6%) higher than the same period in 2009-10, due mainly to the increase in general government investment outlined earlier and spending by the Water Corporation on the Southern Seawater Desalination plant.

## Interim Financial Statements

### Statement of Responsibility

The following Interim Financial Statements and accompanying notes for the general government sector and whole-of-government have been prepared by the Department of Treasury and Finance from information provided by agencies.

In our opinion, the statements are a true and fair presentation of the operating statements and cash flows of these sectors for the six months ended 31 December 2010 and of the balance sheets of these reporting entities at 31 December 2010. The statements have been prepared in accordance with applicable Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board and where there is no conflict with these standards, they are also consistent with the Australian Bureau of Statistics' *Government Finance Statistics Concepts, Sources and Methods 2005*.

Differences between accounting and economic aggregates are detailed in the notes as Convergence Differences, consistent with the requirements of AASB 1049: *Whole of Government and General Government Sector Financial Reporting*.

TIMOTHY MARNEY

---

## Notes to the Financial Statements

---

---

### NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

---

(a) *General Statement*

The financial statements constitute general purpose financial statements for the whole-of-government and the general government sectors. The whole-of-government sector is also known as the total public sector.

The financial statements are a requirement of the *Government Financial Responsibility Act 2000*.

(b) *The reporting entity*

The reporting entity is the Government of Western Australia (the total public sector) and includes entities under its control.

The total public sector includes the general government sector and the public corporations sector (which seek to recover the majority of costs of their operations through user charges and other revenue sources).

The general government sector consists of those agencies and Crown entities that provide services that are predominantly funded from central revenue.

(c) *Basis of Preparation*

The financial statements for the six months ended 31 December 2009 have been prepared in accordance with Australian Accounting Standards, in particular AASB 134: *Interim Financial Reporting*, and AASB 1049: *Whole of Government and General Government Sector Financial Reporting* and other authoritative pronouncements of the AASB.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the audited Consolidated Financial Statements for the year ended 30 June 2010, presented in Appendix 1 of the *2009-10 Annual Report on State Finances (ARSF)* released on 28 September 2010. The accounting policies adopted in this publication are consistent with those outlined in the 2009-10 ARSF. The specific accounting policies of the Government of Western Australia are described in Note 3: *Summary of Significant Accounting Policies* in Appendix 1 of the 2009-10 ARSF.

The Interim Financial Statements are presented in Australian dollars and all amounts are rounded to the nearest million dollars (\$m). As a consequence, columns may not add due to rounding.

(d) *Unaudited data*

The Interim Financial Statements are not subject to audit.

---

**NOTE 2: OPERATING REVENUE**

---

A detailed dissection of general government and total public sector operating revenue is included in Appendix 2: *Operating Revenue*.

---

**NOTE 3: TRANSFER EXPENSES**

---

Transfer expenses are defined as the provision of something of value for no specific return or consideration and include grants, subsidies, donations, transfers of assets free of charge, etc.

The following tables provide detail of current and capital transfer expenses of the general government sector and total public sector.

---

**TRANSFER EXPENSES (A)**

(a) Includes grants, subsidies and other transfer expenses.

#### NOTE 4: CONVERGENCE DIFFERENCES

Where possible, AASB 1049 harmonises GFS and accounting concepts into a single presentation. Where harmonisation cannot be achieved (e.g. the recognition of a doubtful debts provision is excluded from GFS net worth), a convergence difference arises.

The following tables detail convergence differences reflected in the December 2010 results.

#### AASB 1049 TO GFS CONVERGENCE DIFFERENCES Net Operating Balance

**NOTE 8: DETAILS OF AGENCIES CONSOLIDATED**

---

The agencies included in these financial statements were detailed in Note 32, Composition of Sectors in the 2009-10 *Annual Report on State Finances*. Changes since that date are:

- with effect from 1 October 2010, the designation of South West Regional College of TAFE has been altered to South West Institute of Technology;
- with effect from 19 October 2010, the designation of C.Y. O'Connor College of TAFE been altered to C.Y. O'Connor Institute;
- with effect from 30 November 2010, the designation of the Office of Health Review was altered to Health and Disability Services Complaints Office;
- the functions of the Office of the Public Sector Standards Commissioner have been transferred to the Public Sector Commission with effect from 1 December 2010; and
- the Agriculture Protection Board was abolished with effect from 20 December 2010.

---

**NOTE 9: CONTINGENT LIABILITIES**

---

There have been no material changes in contingent liabilities since the release of the 2009-10 *Annual Report on State Finances*.

---

## APPENDIX 2

### Operating Revenue

The tables below detail operating revenue of the general government and total public sectors. They provide detailed revenue information consistent with the operating statements presented in Appendix 1: *Interim Financial Statements*.

The total public sector consolidates internal transfers between the general government sector and agencies in the public corporation sectors.

Accordingly, some total public sector revenue aggregates may be **smaller** than the general government equivalent. For example, the general government sector collects payroll tax from some public corporations. These collections are not shown in the total public sector taxation revenue data which is thus smaller than the general government taxation revenue aggregate.

## APPENDIX 3

### Public Ledger

The Public Ledger, established by section 7 of the *Financial Management Act 2006* (FMA), includes those transactions and operations that are conducted through the Public Bank Account and maintained by the Treasurer. The Public Ledger comprises the Consolidated Account, the Treasurer's Advance Account and the Treasurer's Special Purpose Accounts.

Table 3.1 shows that the aggregate balance of the Public Ledger at 31 December 2010 increased by \$1,348 million compared with 31 December 2009. This mainly reflects the net impact of a \$485 million decrease in the Consolidated Account deficit, partially offset by a \$830 million increase in the Treasurer's Special Purpose Accounts.

Table 3.1

#### PUBLIC LEDGER BALANCES AT 31 DECEMBER

	2010 \$m	2009 \$m
<b>THE PUBLIC LEDGER</b>		
Consolidated Account <sup>(a)</sup>	-5,598	-6,083
Treasurer's Special Purpose Accounts	6,923	6,093
Treasurer's Advance Account – Net Advances	-27	-60
<b>Total</b>	<b>1,298</b>	<b>-50</b>

(a) The balance of the Consolidated Account at 31 December 2010 includes non-cash appropriations of \$5,200 million (31 December 2009: \$4,429 million), representing the non-cash cost of agency services. These appropriations are credited to agency holding accounts that are included in the Treasurer's Special Purpose Accounts balance.

### Consolidated Account

The *Constitution Act* requires that all revenue of the Crown that is not permanently appropriated by legislation to another entity, shall be credited to the Consolidated Account, and that payments out of the Account must be appropriated by Parliament.

Accordingly, Consolidated Account revenue is not available for use by agencies that collect it, and such receipts must be paid directly to the credit of the Account. Expenditure is authorised by Parliament, with both the amount and the expressed purpose of the relevant appropriation clearly specified.

The Consolidated Account recorded an accumulated deficit of \$5,598 million at 31 December 2010. This included \$5,200 million in non-cash Holding Account balances for agencies, associated with accrual (non-cash) appropriations for depreciation and leave entitlements.

In cash terms, the Consolidated Account recorded a cash deficit of \$398 million at 31 December 2010, compared with an accumulated cash deficit of \$1,654 million for the period ended December 2009.

Cash balances vary significantly through the year, depending on the timing of receipts into, and payments from, the Account.

## Treasurer's Special Purpose Accounts

The Treasurer's Special Purpose Accounts (TSPA) consists of:

- any account established by the Treasurer as a TSPA for the purposes determined by the Treasurer;
- suspense accounts established for the purposes of section 26 of the FMA;
- any account established to hold money transferred under section 39(5) of the FMA;
- the Public Bank Account Interest Earned Account established for the purpose of holding money credited to that account under section 38(9) of the FMA pending its allocation and payment as required or permitted under the FMA or another written law;
- any account established under written law and determined by the Treasurer to be a TSPA; and
- any account established to hold other money and determined by the Treasurer to be a TSPA.

The \$830 million increase in the TSPA mainly reflects higher Holding Account balances for accrual appropriations to agencies for depreciation and accrued leave entitlements (up \$771 million).

Other Special Purpose Accounts	374	370
<b>TREASURER'S SPECIAL PURPOSE ACCOUNTS</b>	<b>6,923</b>	<b>6,093</b>

Table 3.3

## Treasurer's Advance

The Treasurer's Advance allows for short-term repayable advances to agencies for working capital purposes (known as 'net recoverable advances') and the provision of supplementary appropriation funding for unforeseen and/or extraordinary events during the year (known as 'excesses and new items').

A limit of \$555.5 million is authorised under section 29 of the FMA for the year ended 30 June 2011, compared with a total of \$469.2 million authorised limit applying at the same time last year (the *Treasurer's Advance Authorization Act 2010* authorised an increase in the 2009-10 limit in May 2010).

Of the \$555.5 million authorised limit applying at 30 December 2010, \$27.1 million was held at 31 December 2010 in the form of net recoverable advances (see Table 3.4) and \$1.3 million against increases in recurrent and capital appropriations (see Table 3.5).

<b>TREASURER'S ADVANCE AT 31 DECEMBER</b>		
	2010	2009
	\$m	\$m
<b>AUTHORISED LIMIT</b>	<b>555.5</b>	<b>469.2</b>
<i>Total Drawn Against Treasurer's Advance Account</i>	28.4	145.4
Comprising:		
Net recoverable advances as at 31 December (see below)	27.1	60.4
Excesses and New Items (see Table 3.5)		
- recurrent	1.2	85.0
- capital	0.1	-

Transport	2.0	2.0
W.A. Health Promotion Foundation	20.1	-
<b>TOTAL RECOVERABLE TREASURER'S ADVANCES</b>	<b>27.1</b>	<b>60.4</b>

(a) Amount less than \$50,000.

## **Transfers, Excesses and New Items**

Table 3.5 outlines transfers of appropriations between agencies, authorised under section 25 of the FMA (and which have no impact on the Treasurer's Advance), and excesses and/or new items approved by the Treasurer (under the authority of section 27 of the FMA).

Transfer of appropriations between agencies were for the following purposes:

- \$0.1 million from the Legislative Council to the Parliamentary Services Department for the transfer of responsibility and the associated funding for the Electronic Document Records Management System Project Manager function;
- \$0.1 million from the Department of Premier and Cabinet to the Department of the Attorney General for the transfer of the non-government legislative drafting services function;
- \$0.3 million from the Department of Treasury and Finance to the Department of Education for the transfer of the i-procurement function;
- \$0.1 million from the Department for Child Protection to the Department of the Attorney General for the Burial of Unclaimed Bodies Under the Bereavement Assistance Program; and
- \$2.6 million from the Office of the Public Sector Standards Commissioner to the Public Sector Commission for the transfer of all functions and operations of the office.
