	<p>Footnotes:</p> <p>1. These fees are reviewed bi-annually, as the cost of a change each year outweighs the additional revenue generated. As a result a fee increase based on a two year catch up was applied to maintain the current levels of service delivery. (e) Represent the excess of the fee charged compared to that year's one year CPI rate (ee) Represent the excess of the fee charged compared to the 2 year CPI rate. (f) Based on a 2 year CPI rate, these fees are in excess due to rounding.</p> <p>2. The department has applied a methodology of rounding in accordance with Treasury guidelines which have been in place for several years. The 85 fees listed have been rounded up. In accordance with the same methodology, 242 fees have been rounded down to as low as 1.5% below the Consumer Price Index (CPI).</p> <p>3. The fee previously charged was considerably less than the cost of providing the service. In order to maintain the current levels of service delivery, the fee was increased above CPI. The fees were approved by EERC.</p> <p>4. This question is not applicable for this set of fees as responsibility for these fees transferred to the Commonwealth on 1 July 2010.</p>
