Notes:

- Actual student contact hours are not recorded. The data provided is based on nominal student curriculum hours (SCH).
- The VET enrolment data collection is not designed to support semester based reporting as each collection point represents a stand alone year-to-date snapshot of activity. The Department of Training and Workforce Development only reports validated enrolment activity at periodic intervals that reflect enrolments recorded from the start of the calendar year.
- For comparability with previous Legislative Assembly Question on Notice 2557 regarding Semester 1 2013 delivery, figures reflect unvalidated VET enrolment data as at July 31 2014, noting that the classification of 'entitlement' and 'non entitlement' did not apply to 2013 delivery.
- Figures for registered training organisations that are not State Training Providers have been aggregated into a single group.
- Publicly funded refers to all training funded by or through the Department of Training and Workforce Development.
- Region – The geographic classification is not an activity based reporting construct and is only used for determining the funding levels of State Training Providers. It does not apply to registered training organisations that are not State Training Providers and is not used for reporting purposes.
