<i>Malmalling-Reservoir</i> (iv) which includes: Reservoir	<i>very small</i>	<i>very small</i>	<i>very small</i>

Notes:

- (i) Suburbs are aggregated by SA2. The aggregation of these suburbs is a close approximation to the SA2.
- (ii) Australian Bureau of Statistics, Regional Population Growth, Australia, 2013-14. Cat. No. 3218.
- (iii) Western Australia Tomorrow Medium Term Population Forecasts (2014 to 2026), Band C population forecasts. Band C represents the median forecast within a low (Band A) to high (Band E) population range. The effect of recent decisions relating to future land use may not be included in the forecasts. These may result in figures higher than those provided above.
- (iv) Comprises suburbs which are predominantly state forest. The SA2 crosses the boundary into the Shire of Mundaring.
