### **Notes**

- Semester 1 is the nationally agreed standard for annual student attendance data. Only the Semester 1 data is verified by principals and is therefore quality assured.
- Because students commence and leave enrolment after the date of the Semester 1 school census in February, the count of students attending during Semester 1 will be different to the count of students enrolled at the time of the school census.
- Students enrolled in more than one education region during Semester 1, 2014 are included in the data for the education region in which they were last enrolled.

(2) Total number of students attending school in Semester 1, 2014, by education region
