Notes:

- In relation to Question 4(a), when the Doctors FTE/HC are described as 'Nil (0)', this means that none of the doctors that work in these hospitals are employed by WACHS. The services are provided by Visiting Medical Practitioners (VMP) alone.
- A VMP is someone who is credentialed by WACHS South West to work in a specific hospital. A VMP is a private Practitioner working from a private practice but sees patients in public hospitals and charges WACHS for the specific patient services.
- FACEMS refers to Fellow of the Australasian College for Emergency Medicine.
