- (2) The Allowable Revenue of the IMO and AEMO must be sufficient to cover the forward looking costs of the IMO or AEMO (as applicable) providing the relevant GSI Services in accordance with the following principles—
- (a) recurring expenditure requirements and payments are recovered in the year of the expenditure;
 - (b) capital expenditures are to be recovered through the depreciation and amortisation of the assets acquired by the capital expenditures in a manner that is consistent with generally accepted accounting principles; and
 - (c) despite subrules (a) and (b), expenditure incurred, and depreciation and amortisation charged, in relation to any GSI Project are to be recovered over the period determined for that GSI Project.
- (3) The Allowable Revenue and Forecast Capital Expenditure for each of the IMO and AEMO must include only costs which would be incurred by a prudent provider of the relevant GSI Services, acting efficiently, seeking to achieve the lowest practicably sustainable cost of delivering those services in accordance with the Rules, while effectively promoting the GSI Objectives.
- (4) Where possible, the ERA should benchmark the Allowable Revenue and Forecast Capital Expenditure for the IMO and AEMO against the costs of providing similar services in other jurisdictions.

(3) If the ERA receives an application from the IMO or AEMO under subrule (2), the ERA may make a determination to adjust the Allowable Revenue and Forecast Capital Expenditure for the Review Period for the IMO or AEMO (as applicable).

(4) A decision by the ERA to adjust the current Allowable Revenue or Forecast Capital Expenditure for the IMO or AEMO in response to an application made by the IMO or AEMO (as applicable) under subrule (2) is binding on the ERA, but a decision not to make such a determination creates no presumption that future expenditure will not meet the relevant criteria under subrule 109(3).

(5) The ERA must undertake a public consultation process, which must include publishing an issues paper and inviting submissions from interested persons, in relation to applications for adjustment of the current Allowable Revenue and Forecast Capital Expenditure for the IMO or AEMO referred to subrule (1), and may do so in relation to an application for adjustment under subrule (2).

(2) The AEMO Budget must be consistent with AEMO’s Allowable Revenue and Forecast Capital Expenditure for the relevant Review Period.

(3) Where the revenue earned for the provision of the AEMO GSI Services via GSI Fees in the previous Financial Year is greater than or less than AEMO’s expenditure for the AEMO GSI Services for that Financial Year, the AEMO Budget must take this into account by decreasing the budgeted revenue by the amount of the surplus or adding to the budgeted revenue the amount of any shortfall, as the case may be.

(4) Where, taking into account any adjustment under subrule (3), the AEMO Budget is likely to result in revenue recovery, over the relevant Review Period, being at least 15% above AEMO’s Allowable Revenue determined by the ERA, AEMO must apply to the ERA to reassess AEMO’s Allowable Revenue for the Review Period.

(5) Where the AEMO Budget is likely to result in capital expenditure, over the relevant Review Period, being at least 10% greater than AEMO’s Forecast Capital Expenditure approved by the ERA, AEMO must apply to the ERA to reassess AEMO’s Forecast Capital Expenditure for the Review Period.
