

LEIGHTON BEACH FORESHORE — COSTINGS

3064. Ms S.F. McGurk to the Minister for Lands:

I refer to the Leighton Beach foreshore development and ask has the rehabilitation of the old marshalling yards and the area around Leighton Beach into public space and parkland been costed and if so, how much is this expected to cost?

**Mr D.T. Redman replied:**

No recent costings have been progressed. The only available costings are those from the 2007 Leighton Oceanside Parklands Master Plan Report which noted the estimated probable cost of the draft landscape master plan as approximately \$30m (ex GST).
