

ARMADALE–KELMSCOTT MEMORIAL HOSPITAL — REDEVELOPMENT

576. Dr A.D. BUTI to the Minister for Health:

I have a supplementary question. The current hospital is not adequate for the demand. Why is the minister delaying a \$15.4 million redevelopment of the hospital? Why?

Dr K.D. HAMES replied:

Clearly the member did not listen to the answer in which I said it is not delayed. The clinical services framework shows that that hospital will need a significant upgrade, and the time in which that is required to be done. That is the time frame that this government is working on.

The SPEAKER: That concludes question time.
