

**COMMUNITY SERVICES — EMPOWERING COMMUNITIES PROGRAM**

*Question on Notice 4520 — Correction of Answer*

**MS S.F. McGURK (Fremantle — Minister for Community Services)** [2.48 pm]: I rise under standing order 82A to table further information about Legislative Assembly question on notice 4520, answered on 12 March 2019. Unfortunately, there was an error in the tabled paper to support the response to part (d) and I wish to table a correction. The points of difference identified specifically include that Greenfields Family Community Centre was not listed. This information was correct at that point in time and it was omitted as it was undergoing preferred respondent negotiations. Manjimup Family Centre and St Patrick's Community Support Centre were not listed due to an administrative error. Meerilinga Young Children's Services Incorporated and Joondalup Family Centre Incorporated were not included in the list. However, they should have been at that point in time. This was because they were undergoing preferred respondent negotiations, which have since concluded and they have now been identified as successful applicants. Additionally, my initial response to part (d) noted that the Department of Communities is also finalising negotiations with 10 preferred providers. Communities can now advise that these negotiations have since been finalised, and this is reflected in my corrected response. I now table that updated response.
