

PORTS AND HARBOURS — FREMANTLE PORT — TRUCKS

3799. Ms S.F. McGurk to the Minister for Transport:

- (1) What is the current estimated capacity in Twenty Foot Equivalents for the Fremantle Port?
- (2) When does the Government expect the maximum capacity of Fremantle Port will be reached?
- (3) What is the average number of trucks going into the Fremantle Port in one day?

**Mr D.C. Nalder replied:**

- (1) 1.2–1.4 million
- (2) This is dependent on the actual rate of growth in the container trade and ranges from 2 023 for a high average annual growth rate to 2 036 for a low average annual growth rate.
- (3) The most recent truck survey in 2014 determined that an average of approximately 2 600 container trucks visit the port on week days.
