

HERITAGE — FREMANTLE FESTIVAL — ARCS D'ÉLLIPSES

3945. Mr A. Krsticevic to the Minister for Heritage:

I refer to the difficulty in removing the Arcs d'Ellipses artwork from heritage buildings in High St Fremantle, and ask:

- (a) Has the environmental risk from the aluminium foil and glue used in the artwork been assessed, and if so:
  - (i) Which agency investigated the risk;
  - (ii) What did the agency report; and
  - (iii) If not, why not; and
- (b) How much disruption to the traffic in High St will be caused by the longer clean-up?

**Mr D.A. Templeman replied:**

- (a)–(b) The City of Fremantle conceived, developed and approved the Arcs d'Ellipses artwork. Therefore, these questions should be addressed to the City of Fremantle.
