

FIRE MANAGEMENT — UNALLOCATED CROWN LAND

**1288. Hon Dr STEVE THOMAS to the parliamentary secretary representing the Minister for Environment:**

I refer to the Department of Biodiversity, Conservation and Attractions' on ground lead management of the 91.3 million hectares of unallocated crown land and unmanaged reserves outside the Perth metropolitan area, and the department's responsibility for the targeted bushfire mitigation and biosecurity on the 91.3 million hectares for each of the financial years 2017–18 to 2022–23 inclusive.

- (1) What was the total of all budgetary allocations for fire management and mitigation of unallocated crown land and unmanaged reserves within Western Australia?
- (2) What was the actual dollar spend per hectare of unallocated crown land and unmanaged reserves in applying bushfire management mitigation in WA?
- (3) What was the total of all budgetary allocations for biosecurity of unallocated crown land and unmanaged reserves within WA?
- (4) What was the actual dollar spend per hectare of unallocated crown land and unmanaged reserves in applying biosecurity in WA?

**Hon KYLE MCGINN replied:**

I thank the member for some notice of the question. I answer on behalf of the Parliamentary Secretary to the Minister for Environment. The following answer has been provided by the Minister for Environment. It is valid as of 17 October.

- (1)–(4) The information for a fulsome answer is not possible in the time required; therefore, I ask the honourable member to place the question on notice.
