

LAVERTON HOSPITAL

**771. Hon WILSON TUCKER to the Leader of the House representing the Minister for Health:**

I refer to the much-anticipated new hospital in Laverton.

- (1) On what date was the tender released?
- (2) Has the government received a response to the tender and has an agreement been signed?
- (3) When will the public be advised of the specific details of the new hospital, such as facilities and capacity?

**Hon SUE ELLERY replied:**

I thank the honourable member for some notice of the question.

- (1) On 27 February 2023.
- (2) Yes, a response was received; however, the process has not been finalised.
- (3) Details of the current planned scope of works for the Laverton hospital project are available online via the Minister for Health's media statements page. The new Laverton hospital will include a new ambulatory care wing, which will accommodate population health and child health; visiting mental health services; and visiting allied health services, covering physiotherapy, occupational therapy and dietetics. Planned works will optimise emergency care facilities and will include new beds, resuscitation bays and acute treatment rooms.
