

BLAIR FOX INCINERATOR AND POWER GENERATOR, MATERIALS PROCESSED

2437. Hon Jim Scott to the Minister for Agriculture, Forestry and Fisheries

- (1) Did the Minister write to the Shire President of Chittering regarding the Blair Fox Incinerator and Power Generator?
- (2) In his letter, did the Minister discuss the use of the Blair Fox Incinerator to dispose of materials other than chicken litter?
- (3) What other materials does the Minister propose to be incinerated at the Blair Fox facility?

Hon KIM CHANCE replied:

- (1) Yes, I wrote to Councillor Jan Stagbouer, Shire President of Chittering on 24 September 2003.
- (2)-(3) Yes. The recommendations of the Government and Industry Working Group, comprising experts from a number of Government Departments and from the Western Australian Local Government Association, assessed the proposed plant with a view to its use for the disposal of poultry waste and feed during an exotic disease outbreak. I also stated in my letter that the project would need to meet the environmental and planning requirements.
