

NARROWS BRIDGE, NUMBER OF VEHICLES

650. Hon MURRAY CRIDDLE to the parliamentary secretary representing the Minister for Planning and Infrastructure:

I refer to the construction of the southern suburbs railway.

- (1) How many vehicles an hour were going over the Narrows Bridge each day as at 1 July 2004?
- (2) What is the prediction for the number of vehicles travelling over the Narrows Bridge each day as at -
 - (a) 1 July 2010; and
 - (b) 1 July 2020?
- (3) How many of these vehicles will be Transperth buses?
- (4) Has a report been done to justify these figures?
- (5) If so, can the minister please table it?

Hon KEN TRAVERS replied:

The honourable member is asked to put this question on notice.
