

ROADS, EXPENDITURE

778. Hon MURRAY CRIDDLE to the parliamentary secretary representing the Minister for Planning and Infrastructure:

Given that the state's road transport network is falling into decay and becoming increasingly dangerous for all road users -

- (1) Will the minister provide a breakdown of the total expenditure on Western Australian roads from all sources for the years 2001-02, 2002-03, 2003-04, 2004-05?
- (2) Will the minister please list the contributions in each of those years from -
 - (a) the state; and
 - (b) the commonwealth?
- (3) Will the minister please list each new project valued at more than \$5 million completed in each of the above years?
- (4) Will the minister please list totals in each of the above years for -
 - (a) capital user charges;
 - (b) depreciation; and
 - (c) other expenses?

Hon ADELE FARINA replied:

There is no evidence to support the claims of the member for the Agricultural Region. In respect of the detailed request for information, I request that this question be put on notice.
