

FORESTS, JARRAH AND KARRI LOGGING

672. Dr EDWARDS to the Minister for Forest Products:

- (1) With regard to the 18,240 hectares of jarrah forest logged in 1997, how many hectares of this had not been previously logged?
- (2) With regard to the 1,930 hectares of karri forest logged in 1997, how many hectares of this had not been previously logged?
- (3) With regard to the 19,250 hectares of jarrah forest logged in 1998, how many hectares of this had not been previously logged?
- (4) With regard to the 2,290 hectares of karri forest logged in 1998, how many hectares of this had not been previously logged?

Mr OMODEI replied:

- 1) Approximately 960 hectares of jarrah forest was recorded as not previously logged.
- 2) Approximately 310 hectares of karri forest was recorded as not previously logged.
- 3) Approximately 610 hectares of jarrah forest was recorded as not previously logged.
- 4) Approximately 1000 hectares of karri forest was recorded as not previously logged.
