

GERALDTON SOUTHERN TRANSPORT CORRIDOR

904. Hon MURRAY CRIDDLE to the Minister for the Mid West and Wheatbelt:

In recent statements in the Geraldton region, the Minister for Planning and Infrastructure indicated that everything that has been done up there has been the responsibility of the current government. However, planning for the southern transport corridor started many years before this government came to power. When will the government build stage 2 of the southern transport corridor to overcome some of the congestion with heavy transport in Geraldton?

Hon KIM CHANCE replied:

I think that is probably a question best directed to the Minister for Planning and Infrastructure.

Hon Murray Criddle: I asked her a question two days ago and did not get an answer.

Hon KIM CHANCE: It is a valid question and it is a matter I will discuss with the minister.
