

MANDURAH AND JOONDALUP RAIL LINES — SERVICE

860. Hon Ken Travers to the parliamentary secretary representing the Minister for Transport:

What were the causes of the technical issues that occurred on Monday, 3 February 2014 on the Mandurah to Joondalup Rail line?

Hon Jim Chown replied:

Train services on the Mandurah and Joondalup lines were delayed on the morning of 3 February 2014 due to an issue that resulted from the Public Transport Authority (PTA) operating a PV6 Track Recorder Machine in the early hours of the morning over the Mandurah down main line to record Track Geometry Conditions as part of its compliance with the Narrow Gauge Code of Practice.
