

INFILL SEWERAGE PROGRAM, GERALDTON

**537. Hon MURRAY CRIDDLE to the Minister for Government Enterprises:**

I understand that the Leader of the House will respond to the question.

- (1) How many houses in the greater Geraldton region are still to be connected to the infill sewerage program?
- (2) How many of these houses are in the Chapman River area?
- (3) What is the schedule for completion of this program?

**Hon KIM CHANCE replied:**

On behalf of the Minister for Government Enterprises, I thank Hon Murray Criddle for some notice of the question.

- (1) There are 2 839 lots in the greater Geraldton region still to have sewerage made available to them under the infill sewerage program. A total of 3 950 lots have been completed.
- (2) There are 133 lots in the Chapman River catchment.
- (3) The remainder of the greater Geraldton region is due to be connected to the infill sewerage program progressively through to 2008-09.
