

BROOKDALE WASTE FACILITY, POLYCHLORINATED BIPHENYLS

914. Hon J.A. SCOTT to the minister representing the Minister for Environment and Heritage:

The branch manager of Cleanaway's technological services, Mr Rob Goldfinch, has said that polychlorinated biphenyls were received at the Brookdale waste facility in the 1990s.

- (1) Where did this material come from?
- (2) What was the quantity in which it came?
- (3) Have other PCBs been sent to this site; if so, can the minister give details?
- (4) Did the facility have the appropriate approvals and licences to handle this material?
- (5) Where is this material now?

Hon TOM STEPHENS replied:

The Minister for the Environment and Heritage has prepared the following reply -

I ask that this question be put on notice to give the Department of Environmental Protection time to research the appropriate files to provide answers to questions (1) to (5).
