

SOUTH FREMANTLE TIP SITE, HYDROGEOLOGICAL REPORTS

176. Hon Jim Scott to the Minister for Housing and Works representing the Minister for the Environment and Heritage

- (1) Will the Minister table any hydrogeological reports for the former tip site in South Fremantle?
- (2) Will the Minister table any test results for contaminants at the former tip site in South Fremantle?

Hon TOM STEPHENS replied:

1) The Minister for the Environment and Heritage has advised the hydrogeological reports for the former tip site in South Fremantle were prepared for the City of Fremantle and are available to the public from the City of Fremantle.

The Department of Environmental Protection therefore regards the reports as third party information and can only make them available under the Freedom of Information Act 1992.

2) The Minister for the Environment and Heritage has advised the test results for contaminants at the former tip site in South Fremantle were prepared for the City of Fremantle and are available to the public from the City of Fremantle.

The Department of Environmental Protection therefore regards the results as third party information and can only make them available under the Freedom of Information Act 1992.
