

HIGH RISK CHEMICAL STORAGE FACILITIES, INSPECTIONS

222. Hon Jim Scott to the Minister for Housing and Works representing the Minister for the Environment and Heritage

Further to Question on Notice No. 128 of Tuesday, July 31 2001 in relation to the joint inspections of high risk chemical storage facilities carried out jointly by the DEP, DME and WorkSafe WA -

Will the Minister detail the facilities, their location and the chemicals stored, that this inspection process has identified?

Hon TOM STEPHENS replied:

The Minister for the Environment and Heritage has advised that the inspection program is still under way. Over thirty premises have been inspected, and a report detailing non-compliance issues will be prepared by the Department of Environmental Protection (DEP) once the program is complete. A copy of this report will be provided to the Honourable Member when it is available.
