

PLANNING — METROPOLITAN REGION SCHEME — MANDOGALUP

1127. Hon Neil Thomson to the Leader of the House representing the Minister for Planning:

I refer to the Metropolitan Planning Scheme (MPS) maps, dated August 2022, and ask:

- (a) does the map show the full extent of urban land designated for development in the Mandogalup East area between Rowley Rd and Anketell Rd;
- (b) is the Minister aware of any additional sub-divisional applications by the developer in relation to this area; and
- (c) can the Minister explain why the developer's website advertises that land is available for urban development from Rowley Rd to Anketell Rd, to within 200m of the Alcoa Residue Disposal Area (RDA) when MPS mapping suggests otherwise?

Hon Sue Ellery replied:

- (a) The Metropolitan Region Scheme map shows the extent of Urban zoned land in Mandogalup.
- (b) The Western Australian Planning Commission has approved five subdivision applications in the east Mandogalup Urban zoned area.
- (c) This question should be directed to the developer.
