

COCKBURN SOUND, MONITORING OF DISCHARGE LEVELS

268. Hon Jim Scott to the Minister for Housing and Works representing the Minister for the Environment and Heritage

On page one of the *Sound Telegraph* of Wednesday, August 9 2000, DEP Public Affairs Manager, Paul McLeod, stated in relation to industry discharge licenses into Cockburn Sound that, '...we've set never to be exceeded levels which will make it easier for us to monitor and if they exceed these levels they will be prosecuted' -

- (1) Will the Minister detail which industries have been set never to be exceeded discharge levels?
- (2) Will the Minister detail for each of these industries what substance has been listed and what is the never to be exceeded level for each of those substances?

Hon TOM STEPHENS replied:

- (1) Wesfarmers CSBP Kwinana has been set never to be exceeded discharge levels.
- (2)

Total Nitrogen:	750 kg/day
Total phosphorus:	750 kg/day
Arsenic:	0.010 mg/L.
