

BLAIR FOX GENERATION WA PTY LTD, INCINERATOR AND POWER GENERATOR

702. Hon JIM SCOTT to the Leader of the House:

- (1) Did the Leader of the House write to the Chittering shire president regarding the Blair Fox Generation WA Pty Ltd incinerator and power generator?
- (2) In this letter, did the Leader of the House discuss the use of the Blair Fox incinerator to dispose of materials other than chicken litter?
- (3) What other materials does the Leader of the House propose to be incinerated at the Blair Fox facility?

Hon KIM CHANCE replied:

I thank the member for some notice of this question.

- (1)-(3) Hon Jim Scott provided me with a copy of this question about 20 minutes before the start of question time, which enabled me to call my office and do a correspondence check. That check, so far, reveals that I have not written to the shire president of Chittering, but that a number of letters were sent from my office to the chief executive officer, Mr Ray Hooper. However, it is possible that I have written to the Shire of Chittering on this matter - indeed, I think it is likely that I have - but so far it has not been possible to identify the particular letter given that I wrote to the CEO on a number of occasions. I ask that the honourable member place the question on notice, and I will resolve the matter with some precision. It may also help if Hon Jim Scott provided a copy of the letter.

Hon Jim Scott: I will do so.

Hon KIM CHANCE: I thank the member very much.
