

HILLARYS BOAT HARBOUR, MARINE RESEARCH FACILITY

**892. Mr JOHNSON to the Minister for Planning and Infrastructure:**

Is it not a fact that the decision has already been made and the final approval for this project is just a mere formality?

**Ms MacTIERNAN replied:**

Absolutely not. As I have explained ad nauseam to the member for Hillarys, who appears incapable of understanding, we have had a series of meetings with the Department of Fisheries. The department has been reminded of the Government's election commitment. I will say this only one more time: no arrangements will be entered into between my department and the Department of Fisheries until such time that we have satisfactorily completed a review of parking arrangements.
