

DISABILITY SUPPORT ACCOMMODATION, "IDENTIFYING THE NEED" REPORT

**913. Mr OMODEI to the Minister for Disability Services:**

Will the minister table the report "Identifying the Need"?

**Ms McHALE replied:**

I have already indicated that I will table the report, but I will table an accurate report that reflects the situation. The document that the member had was problematic, in that the commission's information on the distinction between applications and applicants was incorrect. I will table the report when the working party has adjusted the figures. The working party chaired by Ian Taylor is still working on the report. As soon as I receive the report, I will be happy to table it.
