

TOX FREE SOLUTION'S WASTE PROCESSOR AT KWINANA

**59. Hon JIM SCOTT to the minister representing the Minister for the Environment and Heritage:**

Will the minister table the environmental assessments that were carried out on the processing of tyres at Tox Free Solution's waste processor in Kwinana?

**Hon TOM STEPHENS replied:**

The Minister for the Environment and Heritage has provided the following response -

The Department of Environmental Protection advises that an environmental assessment was made prior to the processing of crumbed tyre rubber at the Tox Free processor in Kwinana. The assessment modelled the likely emissions that would occur during the trial to ensure that the emissions during the trial would meet licence limits.

On behalf of the Minister for the Environment and Heritage, I table the assessment of the emissions modelling results and a comparison with the licensing limits for the tyre trial at Tox Free.
