

ROELANDS ROAD TRAIN ASSEMBLY AREA

Question without Notice 743 — Answer Advice

HON JIM CHOWN (Agricultural — Parliamentary Secretary) [5.07 pm]: I have a response to question C801 asked by Hon Sally Talbot yesterday, which I deferred answering. I now have the appropriate answer.

- (1) Main Roads Western Australia has engaged the ARRB Group to investigate vehicle stability and performance issues and options for route improvements to accommodate 36.5 metre vehicle access on Roelands Hill. It is anticipated ARRB will finalise its investigation by November 2015. In the interim, operators are able to use the road train assembly area on Coalfields highway at night if they provide their own lighting on their vehicles.
- (2) Not applicable.
- (3) Refer to part (1).
