

SCHOOLS — SPEED ZONE SIGNS

210. Hon KEN TRAVERS to the parliamentary secretary representing the Minister for Transport:

- (1) What is the cost of installing a set of standard 40-kilometre-an-hour road signs in a school zone?
- (2) What is the cost of installing a set of electronic flashing speed zone signs in a school zone?
- (3) What happens to the standard school road signs when they are replaced with the electronic signs?

Hon JIM CHOWN replied:

I thank the honourable member for some notice of this question.

- (1) Approximately \$1 000 per road, which usually consists of four signs—that is, \$250 per sign.
- (2) Approximately \$38 000 per road, which usually consists of four signs—that is, \$9 500 per sign.
- (3) Standard school zone signs are removed and, if they are in good condition, they are stored for re-use.
