

MEDIBANK — HEALTH RECORD DATA BREACH

1113. Hon WILSON TUCKER to the Leader of the House representing the Premier:

What support or protection is the government providing to Western Australian residents exposed by the Medibank health record hack?

Hon SUE ELLERY replied:

You are in the wrong chamber, my friend. I thank the member for some notice of the question. The commonwealth government and the Office of the Australian Information Commissioner are providing advice and assistance for consumers impacted in the Medibank and AHM data breach. There is currently no suggestion that the compromised data contains any relevance to Western Australian government credentials. The WA government will continue to monitor the situation and engage with the commonwealth government.
