

SMARTPARKER — INFRINGEMENTS

959. Hon KEN TRAVERS to the parliamentary secretary representing the Minister for Transport:

- (1) Can the Minister for Transport confirm that there have been technical issues with the SmartParker technology?
- (2) If yes to (1), what were the issues; and what impact did these issues have on the ability to issue infringements?
- (3) Have the issues been fixed?

Hon JIM CHOWN replied:

I thank the honourable member for some notice of this question.

- (1)–(2) For a very small number of transactions, there is a delay in the transfer of data between the parking machine and the Public Transport Authority's enforcement database. Infringements can be and are being issued. A small number are being disputed.
- (3) System refinement is still occurring to establish the cause of the data delay issue, which is intermittent.
