

BUS SERVICE — ROUTE 297

**977. Hon SAMANTHA ROWE to the parliamentary secretary representing the Minister for Transport:**

I refer to a letter I received from the Minister for Transport on 9 June 2015 regarding the route 297 bus service. The minister noted that Transperth would continue to monitor patronage on the bus service and respond to changing demands.

- (1) How does this continual monitoring occur, and how regularly is data on the service collected?
- (2) Has recent monitoring revealed increased patronage over the past six months?
- (3) Are there plans to improve the frequency of the service; and, if not, why not?
- (4) Will the government consider putting on an additional 297 service from Midland train station after school on school days?

**Hon JIM CHOWN replied:**

I thank the honourable member for some notice of this question.

- (1) Patronage data from Transperth's ticketing system is collected every day and reviewed each month by Transperth's service planners to identify trends. In addition, Transperth bus operators record all trips that are heavily loaded each week, and Transperth develops plans to alleviate these issues.
- (2) No.
- (3)–(4) No, because patronage has not changed.
