

FOREST POLICY, ASSISTANCE PACKAGE

674. Mr OMODEI to the Premier:

The Premier has not answered the most important part of the question; that is, what is the assistance package that has been allocated from state resources for industry assistance and redundancies in this year's budget, and from which departments has this allocation been made?

Dr GALLOP replied:

I refer the member to the budget papers. If he contacts the web site of the Government and reads the press releases from the Minister for Agriculture, Forestry and Fisheries, the Minister for the Environment and Heritage, the Minister for the South West and the Minister for State Development, he will find all the information that he needs.
