

CYBERSECURITY — GOVERNMENT AGENCIES

1962. Hon Wilson Tucker to the Minister for Innovation and the Digital Economy:

I refer to my previous question, C125, regarding agency compliance with the WA Government's Cybersecurity Policy, and I ask:

- (a) how many agencies have achieved each level of cybersecurity maturity; and
- (b) if this information is not available, how does the Office of Digital Government monitor and ensure compliance with the policy?

Hon Stephen Dawson replied:

- (a)–(b) Information in relation to the cybersecurity maturity of agencies remains Cabinet in confidence and is sensitive given it contains details relating to the security of state entities.
