

ENERGY — DOMESTIC GAS RESERVATION POLICY

732. Dr D.J. Honey to the Minister for State and Industry Development, Jobs and Trade:

I refer to the domestic gas 15% reservation policy, and ask, for each of the past three financial years:

- (a) What is the estimated volume of gas represented by the 15% reservation policy for each year;
- (b) How much of the 15% reserved gas was consumed in each year;
- (c) What was the estimated total gas consumption in Western Australia for each year; and
- (d) How much of the 15% reserved gas has been consumed in Western Australia since the reservation policy was implemented?

Mr R.H. Cook replied:

(a)–(c)

	(a)	(b)	(c)
2019–20	175 PJ	232 PJ	387 PJ
2020–21	183 PJ	153 PJ	389 PJ
2021–22	244 PJ	175 PJ	376 PJ

- (d) Close to 6,700 PJ of gas under the reservation policy has been supplied into the domestic market.
