

CANCER CASES, NUMBER DIAGNOSED

1731. Hon Jim Scott to the Parliamentary Secretary representing the Minister for Health

What were the actual number of cases diagnosed and the incidence rate of -

- (a) Stomach;
- (b) Colon;
- (c) Prostate;
- (d) Testis;
- (e) Bladder;
- (f) Kidney; and
- (g) Leukaemia,

cancer in Western Australia over each of the past 5 years?

Hon SUE ELLERY replied:

The requested information is presented in a table below.

Cancer in Western Australians, 1998 to 2002 (last complete data):

Cases diagnosed, and incidence rate, Age Standardised Rate (ASR) per 100,000 population

Stomach cancer

Year	Male cases	Male ASR	Female cases	Female ASR
1998	92	7.7	57	3.4
1999	117	9.9	60	3.9
2000	112	8.5	50	3.3
2001	97	7.1	61	4
2002	93	6.7	49	3.2

Colon cancer

Year	Male cases	Male ASR	Female cases	Female ASR
1998	299	25.4	285	21.2
1999	316	26	306	20.6
2000	360	29.3	296	20.2
2001	359	26.9	337	20.9
2002	350	25.5	310	19

Prostate cancer Testicular cancer

Year	Male cases	Male ASR	Male cases	Male ASR
1998	712	61.5	50	4.6
1999	932	77.3	60	5.6
2000	808	64.4	58	5.2
2001	944	73.9	54	5.1
2002	1204	92.5	64	6

Bladder cancer

Year	Male cases	Male ASR	Female cases	Female ASR
1998	98	7.7	38	2.6
1999	100	7.7	44	2.3
2000	128	9.6	46	2.7
2001	121	8.9	37	2.1
2002	137	9.5	47	2.5

Kidney cancer

Year	Male cases	Male ASR	Female cases	Female ASR
1998	94	8.1	58	4.9
1999	125	10.6	78	6.6
2000	127	10.7	72	5.4
2001	116	8.8	55	3.9
2002	128	9.6	79	5.8

Leukaemia

Year	Male cases	Male ASR	Female cases	Female ASR
------	------------	----------	--------------	------------
