

SCHOOLS — CLASS SIZES

**374. Mr P.J. RUNDLE to the Minister for Education:**

I have a supplementary question. That was a very comprehensive response about the previous government. I want to know: what is the minister doing to help our overworked teachers and to bring more teachers back into the system to bring the average down?

**The SPEAKER:** That is about two questions in one. Minister, I hope that does not encourage you to give too lengthy an answer.

**Dr A.D. BUTI replied:**

I will make it brief. I think I just outlined the additional support that we have given our teachers—school psychologists, education assistants et cetera. I have previously mentioned what we are doing to try to attract teachers back to the profession.
