

SOUTHERN YARRAGADEE AQUIFER

**784. Mr P.D. OMODEI to the Premier:**

I have a supplementary question. The second part of the question asked whether the Government proposed to take any more water from the southern Yarragadee aquifer. Is it not a fact that the Government has applied for a further 90 gigalitres of water above and beyond the 45 gigalitres to be taken from the southern Yarragadee aquifer?

**Dr G.I. GALLOP replied:**

No decisions have yet been made about the south west Yarragadee aquifer. Investigations are occurring. Any decision will be made on the proper basis.
