

GREENBUSHES PRIMARY SCHOOL

Statement by Member for Warren-Blackwood

MR P.D. OMODEI (Warren-Blackwood) [1.55 pm]: I pay tribute to the Greenbushes Primary School and the school community. Last night I attended the presentation of its awards. The school's achievements in numeracy and literacy are among the highest in the state, and it has had great success in winning community achievement awards at the Warren-Blackwood district education awards two years in a row. This very small school, which is headed by the principal Geoff Fullston, and has a tremendous parents and citizens association and school council, is outstanding. It is a pleasure to see the support, contribution and cooperation provided to the community by the Gwalia Tantalum mine and Whittakers Timber Pty Ltd. I pay tribute to and congratulate the school and the school community, and hope that they will continue to set an example for other primary schools in the state.
