

STATE TRAIL BIKE STRATEGY

561. Mr M.P. MURRAY to the Minister for Sport and Recreation:

I have a supplementary question. Is the minister aware of the number of deaths in recent times because he has not implemented many of the strategies that are in this report?

Mr T.K. WALDRON replied:

I am aware that we had some accidents with trail bikes et cetera; of course I am. However, as I said before, the key part of the strategy is to upgrade and to do other areas, and that is my focus.
