

POWER LINES, RELOCATION AROUND SCHOOL

347. Hon Jim Scott to the Parliamentary Secretary representing the Minister for Education

Further to Part 1 of my question without notice 521 (of which some notice has been given) of 13 November 2001

-

- (1) Did the Department of Education sign any document agreeing to the relocation of power lines around the school?
- (2) Did the Minister personally approval of its relocation?

Hon G.T. GIFFARD replied:

- (1) The Department of Education wrote to the project manager on 24 October 2001 advising that the realignment that was acceptable to Western Power was acceptable to the Department.
- (2) No. However, the Department has recently endorsed an alternative realignment, which is acceptable to the school community.
