

BUTLER TRAIN STATION — CAR PARK CAMERAS

1049. Hon KEN TRAVERS to the parliamentary secretary representing the Minister for Transport:

I refer to question without notice 961.

- (1) What is the purpose of having the pairs of cameras fixed on the entrances and exits to Butler train station car parks?
- (2) Are there similar pairs of cameras fixed on the entrances and exits of any other Public Transport Authority-controlled car parks?
- (3) If yes to (2), which ones?
- (4) When were these pairs of cameras installed?

Hon JIM CHOWN replied:

I thank the honourable member for some notice of this question.

- (1) The purpose of having the cameras fixed on the entrance and exit to the Butler station car park is to assist in identifying the vehicle and driver, to enhance the capability of security staff to monitor the station surrounds.
- (2) Yes; at 13 other station car parks.
- (3) At Midland, Meltham, Maylands, Bassendean, Warwick, Rockingham, Murdoch, Cockburn Central, Currambine, Maddington, Beckenham, Kwinana training centre and the Public Transport Centre.
- (4) The car park identification cameras at Butler station were installed in early 2014, and were commissioned for the opening of the station in September 2014.
