When post-traumatic stress disorder taken to be injury caused while engaged in volunteer activities**

- (1) In this section —
DSM-5 means the Diagnostic and Statistical Manual of Mental Disorders, 5th edition, published by the American Psychiatric Association in 2013.
- (2) An injury by contracting post-traumatic stress disorder suffered by a volunteer is, for the purposes of this Part, taken to be caused to the volunteer while engaged in volunteer activities if all of the requirements for the application of this section to the injury as specified in subsection (3) are satisfied, unless the responsible agency proves that the injury was not caused to the volunteer while engaged in volunteer activities.
- (3) The requirements for the application of this section to an injury by post-traumatic stress disorder contracted by a volunteer are as follows —
 - (a) the volunteer is diagnosed as having post-traumatic stress disorder by a psychiatrist in accordance with the diagnostic criteria in DSM-5 for post-traumatic stress disorder;
 - (b) the volunteer is first diagnosed as having post-traumatic stress disorder (whether in accordance with paragraph (a) or otherwise) on or after 6 May 2023.
