# 2015/16 ANNUAL REPORT HEARINGS – QUESTIONS TAKEN ON NOTICE AND ADDITIONAL QUESTIONS

### Western Australian Tourism Commission (trading as Tourism Western Australia)

A3) What were interstate and intrastate visitors and spend and day trip data for 2015/16. All purposes of travel?

#### Answer:

In January 2014 Tourism Research Australia (TRA) began a dual-frame data collection approach (i.e. interviews on both mobile and landline telephones) for the National Visitor Survey (NVS).

Recent NVS results indicate unusually high growth in the Business sector for all Australian States. TRA has confirmed it has identified a methodology issue and is working to resolve it. The full impact on the visitation estimates is not yet known and the NVS statistics provided below are the most current, pending further advice from TRA.

Interstate estimates are based on small sample sizes and so should be considered within the associated margin of error. At an all visitor level the confidence level for the interstate visitation estimates is  $\pm 9\%$ .
