

While I appreciate all that the school bus services has done for me and my high school children, providing a bus extension that has enabled 10 students over the years to be at home instead of a boarding school.

I feel our Primary school students and lack of buses are suffering, we have locally 16 students at the school, of which 9 catch the bus.

These students range from Kindy to year 6 mostly year 3 and under.

We have 1 bus that Starts to pickup at 6:45 to able the bus to pickup all students before an 8:35 school drop. I feel that is just to long for young children to be on the bus (it's the same times my high school students catch the bus and they travel 110kms into Esperance) Also with New families with Kiddy students starting next year will get worse.

My youngest has lost the bus as we are complementary being 4.3kms from the school, but that's fine and I personally wouldn't use the bus knowing that it would add time on an already long bus run.

Thankyou for all you are doing and hoping to achieve.
