

I was accepted to attend the clinic in Subiaco but due to the costs of Dr and prescription costs I am unable to go. I was advised by multiple Drs to keep using CBD oil as it has helped my health incredibly. I use to get it privately but that's no longer an option. My health is now starting to suffer as i can't afford to go to the clinic on a disability pension. Please make it cheaper, especially for those suffering financially as well as with their health
